

INTRODUCTION TO PLASMA & GANS

PRESENTED BY NETG

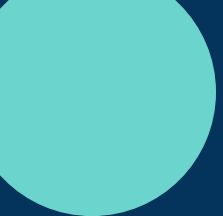

WHAT IS GANS?

GaNS stands for "Gas as Nano Solid"

When we talk about the matter state of gas we are referring to molecules like oxygen, hydrogen, carbon dioxide, etc.

It is the least dense of our known states of matter.

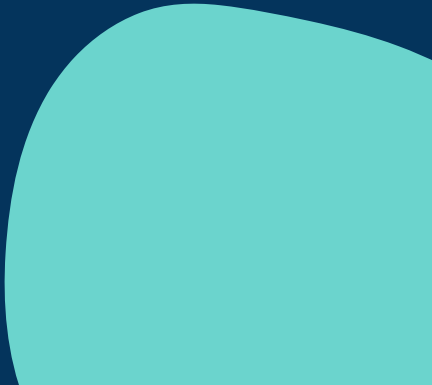

- When we say Nano we are referring to an atomic scale, the size of an atom. So when we are dealing with GANS we are talking about another state of matter at the scale of atoms.
- It is the first variation of manifestation in this experience we call "reality". The atom is the first creation in this field strength environment we call matter, and everything originates from it.
- If we think about different states of matter we have gas, liquid, solid and now we have GANS. GANS is a substance that we can physically create that is closest to our original source energy.

- GANS is in essence, pure love or unconditional love in its purest state of matter. Therefore, intrinsic within its beingness is the desire to give and provide for the benefit of the whole.

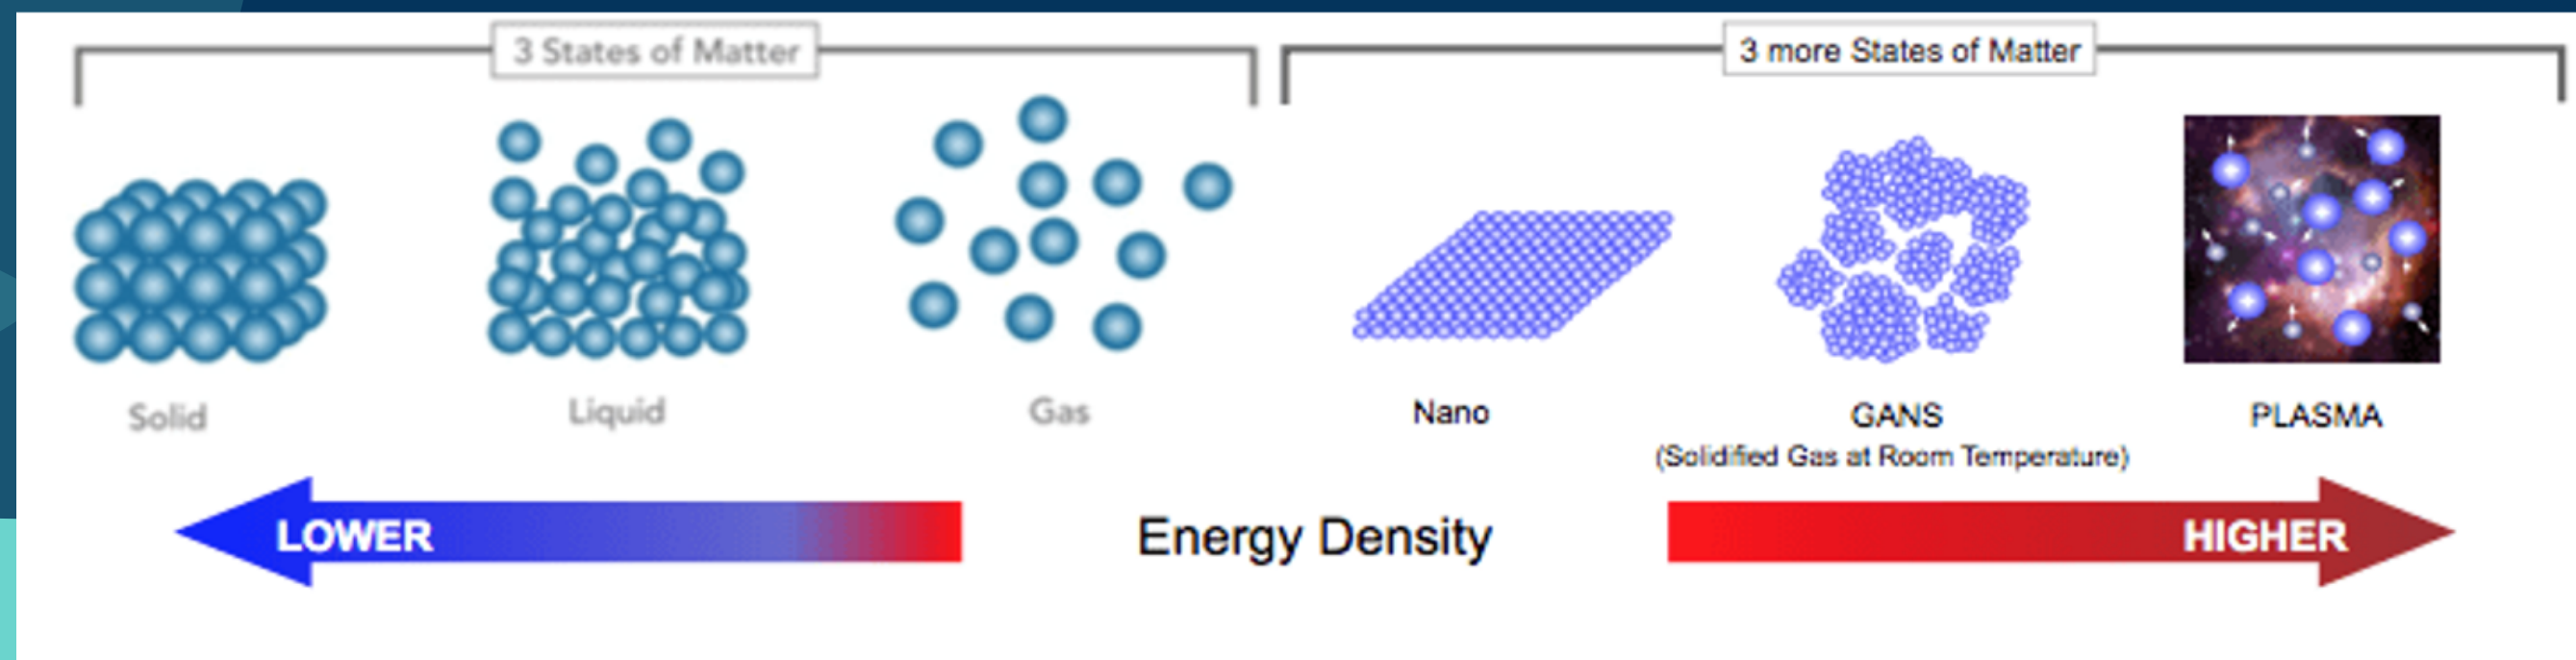

-
- It is the closest thing to SOURCE energy that has been manifested within our reality, and as such, it will provide for the needs of those who interact with it. It is a consciousness interface and those who begin to work with their GANS will soon discover that they are interfacing with a substance that requires one to be connected and aware of all life.

-
- Those who begin to create and harvest their GANS shall be embarking on a cellular and spiritual journey as the fields that begin to interact with one's soul, will begin to magnetize that soul to the remembrance of ONENESS where all life was birthed, from the center point of creation.

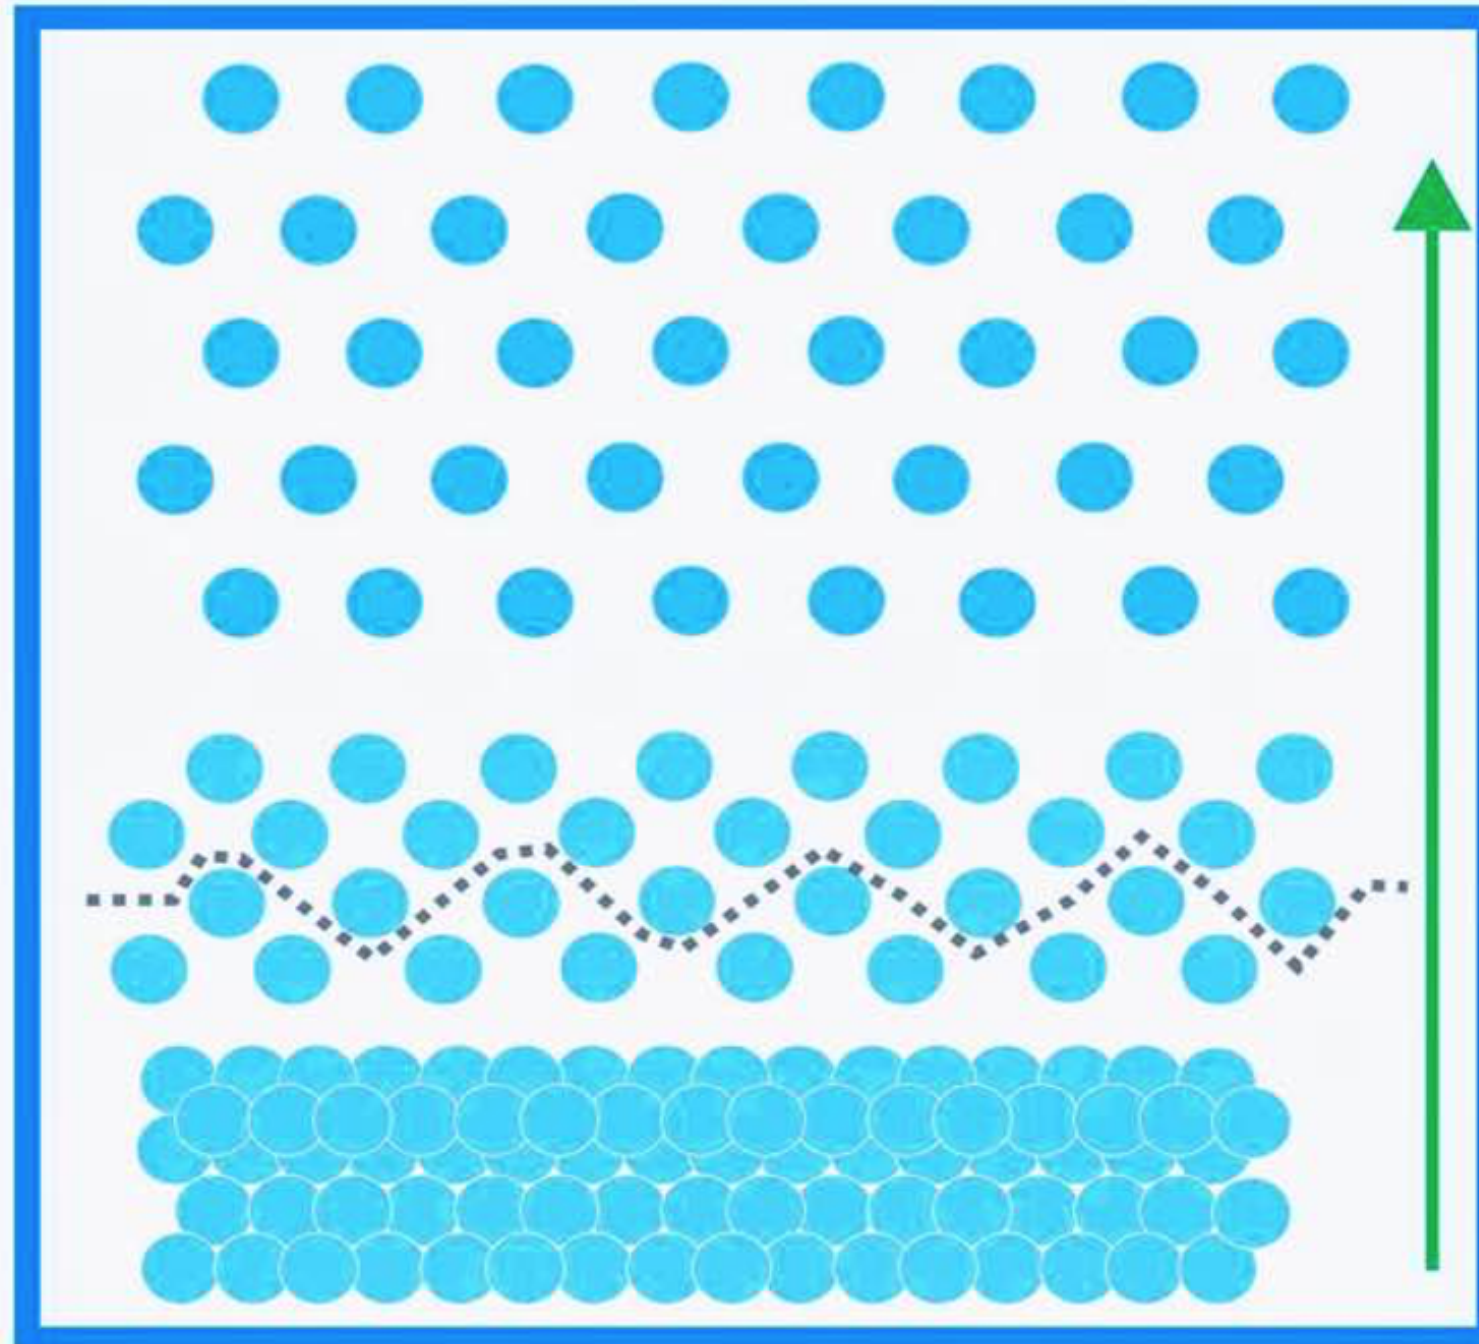

- Most of us grew up with the understanding of the different states of matter.
- We know that solids are hard, liquids are wet and gasses are vapors that look like mist in the air.
- What we are dealing with here are different densities of the same matter.

TYPES OF GANS

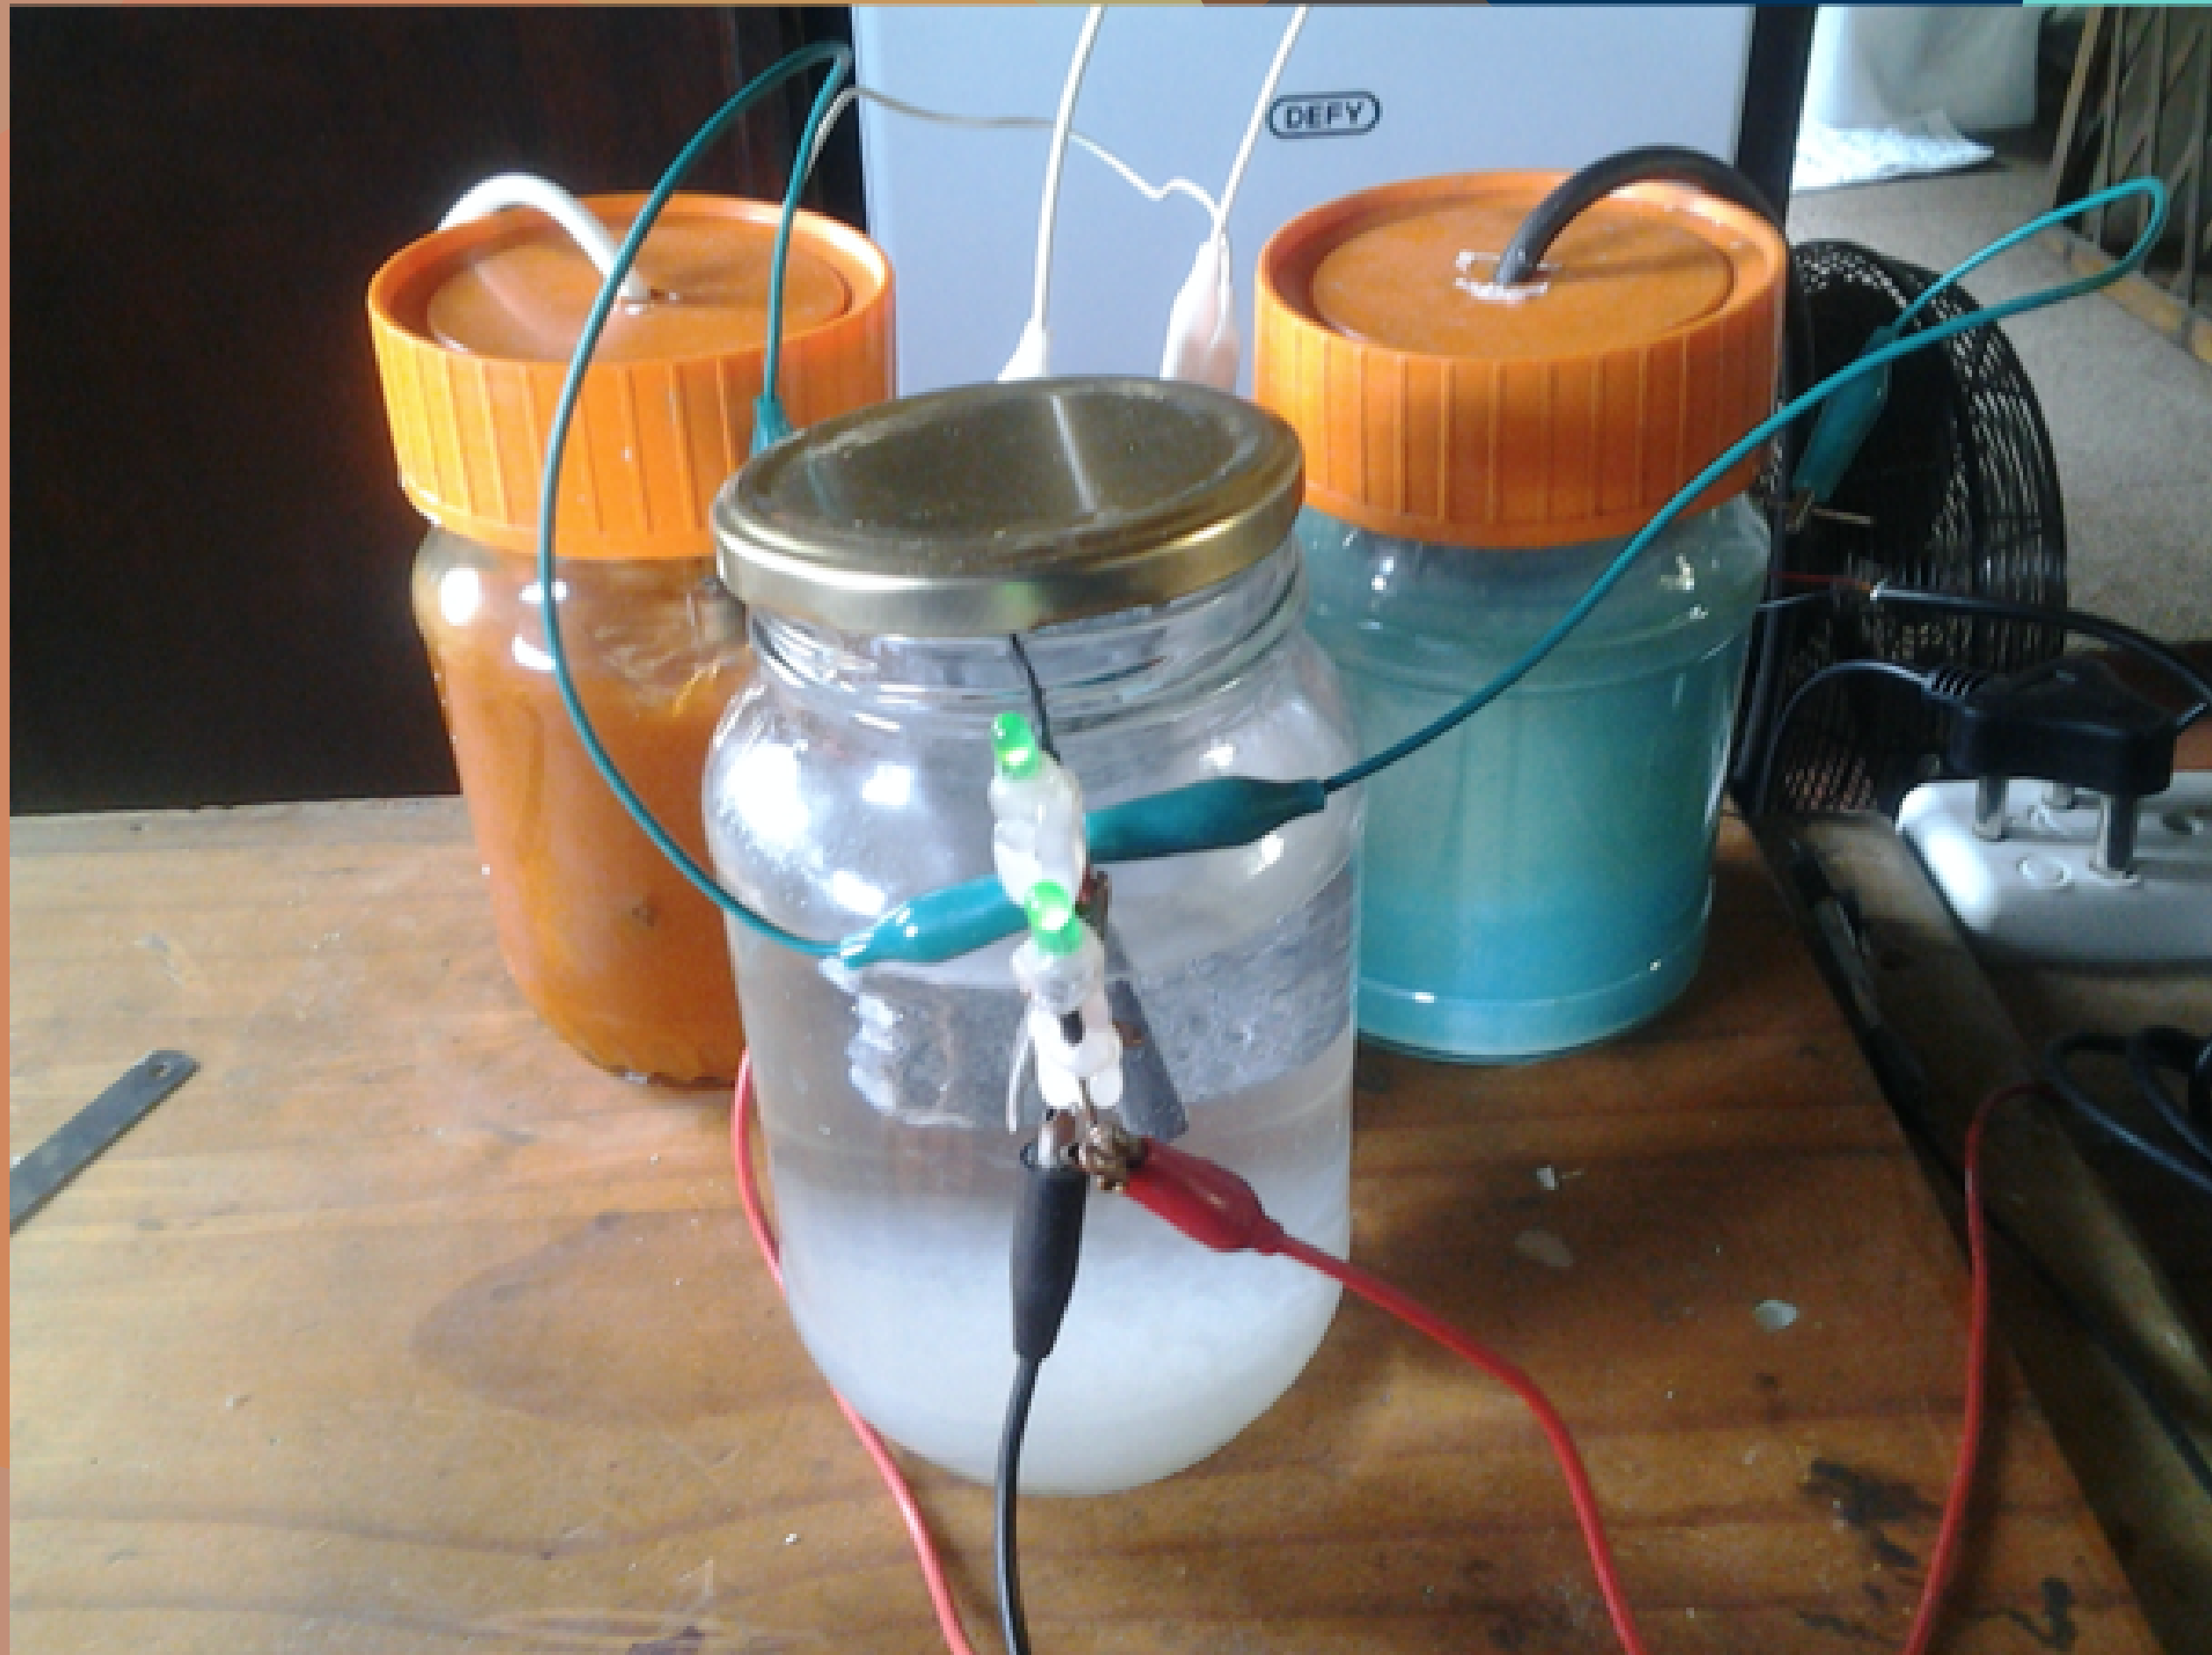

We need to create GaNS's (GAs as Nano Solid) for many purposes. They are energetic balls of plasma which have both Magnetical & Gravitational fields. There are 5 common types of GaNS's one can produce easily which can be used for health, wellbeing, agriculture and power.

They are as follows:

- 1.CO₂ GaNS- used to connect the physical and emotional bodies and keep them in balance. Also cleaning of radiation and viruses
- 2.Zinc Oxide GaNS - used for the emotional wellbeing
- 3.CH₃ GaNS - giving energy, as it is part of the sugar chemistry.
- 4.Copper Oxide GaNS - used for the physicality part of muscles, decontamination and antibacterial
- 5.Seawater GaNS - used for health purposes and agriculture.

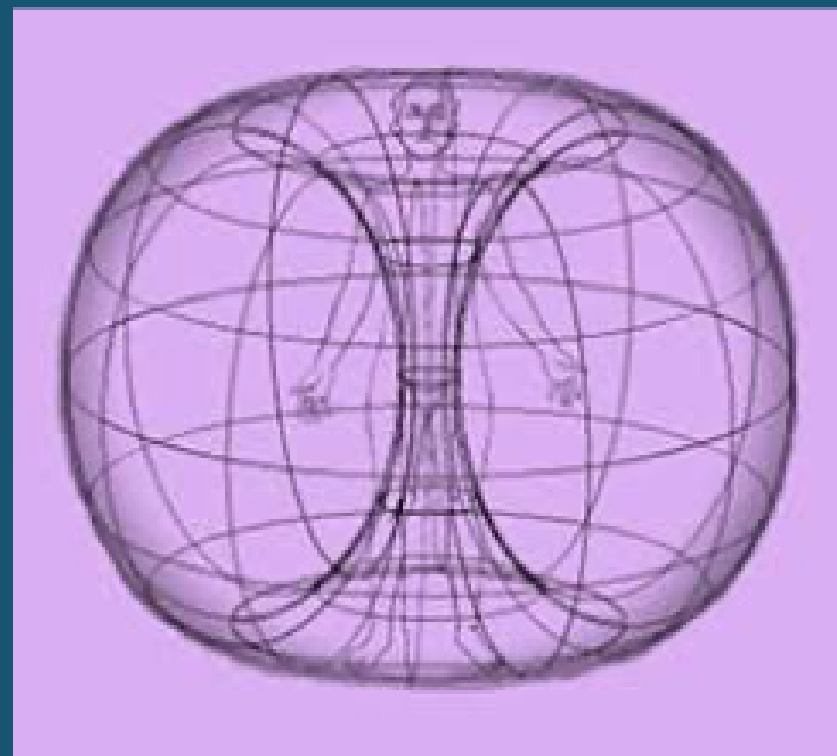

“If
you want to find
the secrets of the universe,
think in terms of
energy, frequency and vibration.”
- Nikola Tesla

PLASMA

- A plasma consists of millions of magnetic gravitational fields that come together and interact in a dynamic way
- A plasma constantly gives out fields freely. They flow into the environment. The fields that are not needed by the environment flow back in to the plasma of which they emanated. It is a principal of giving and receiving unconditionally. Giving what is needed, taking back what is not needed.
- We look at space and we think there is emptiness between the earth and the moon or between the planets or stars. In fact space is filled to overflowing with invisible magnetic and gravitational fields. All moving at different speeds and interacting.

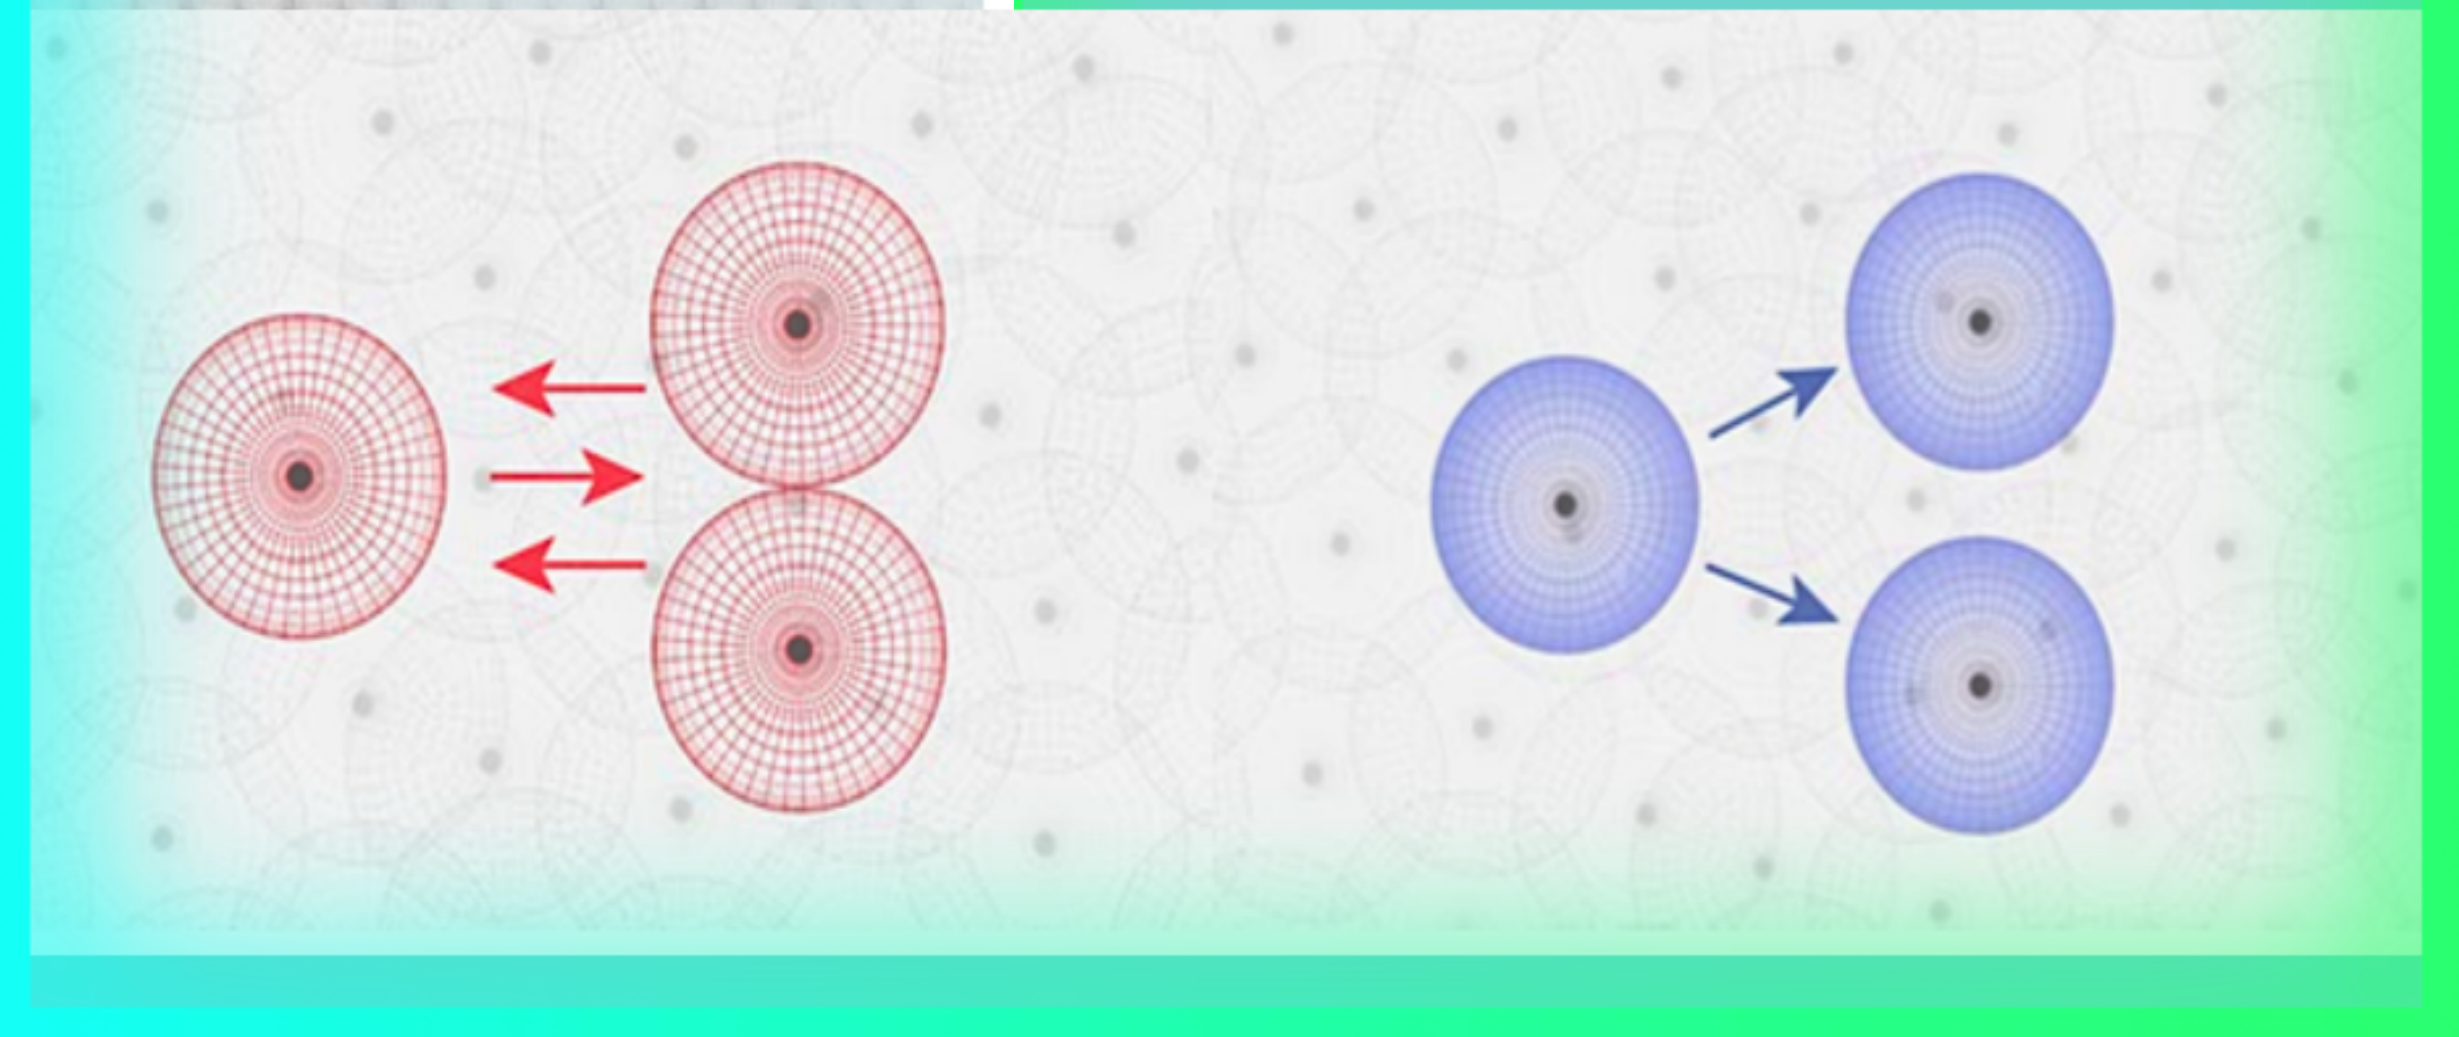

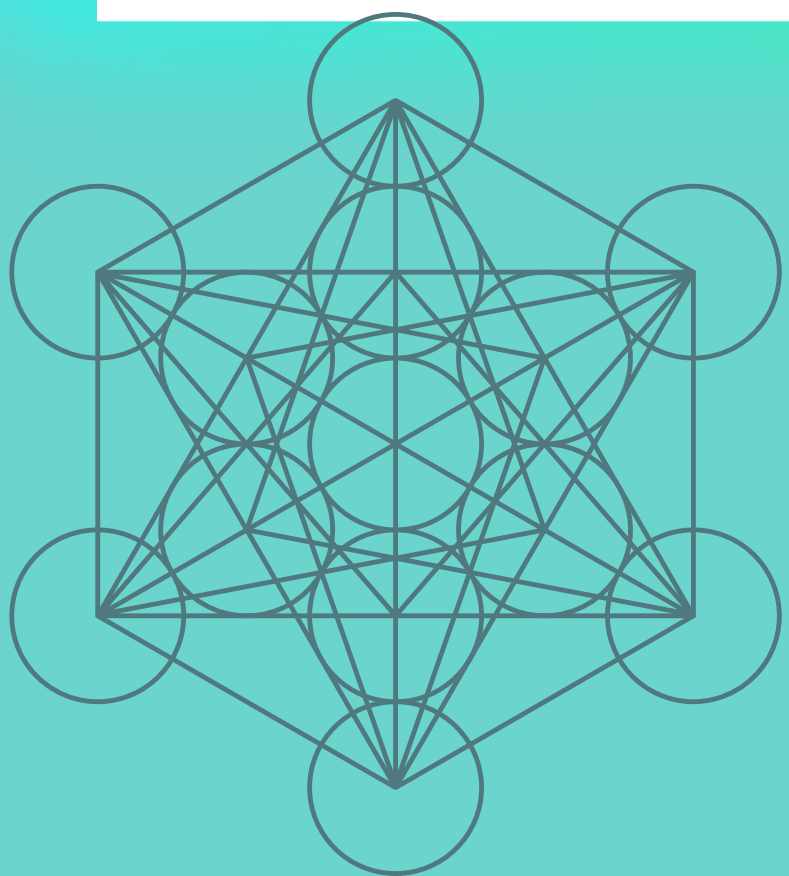

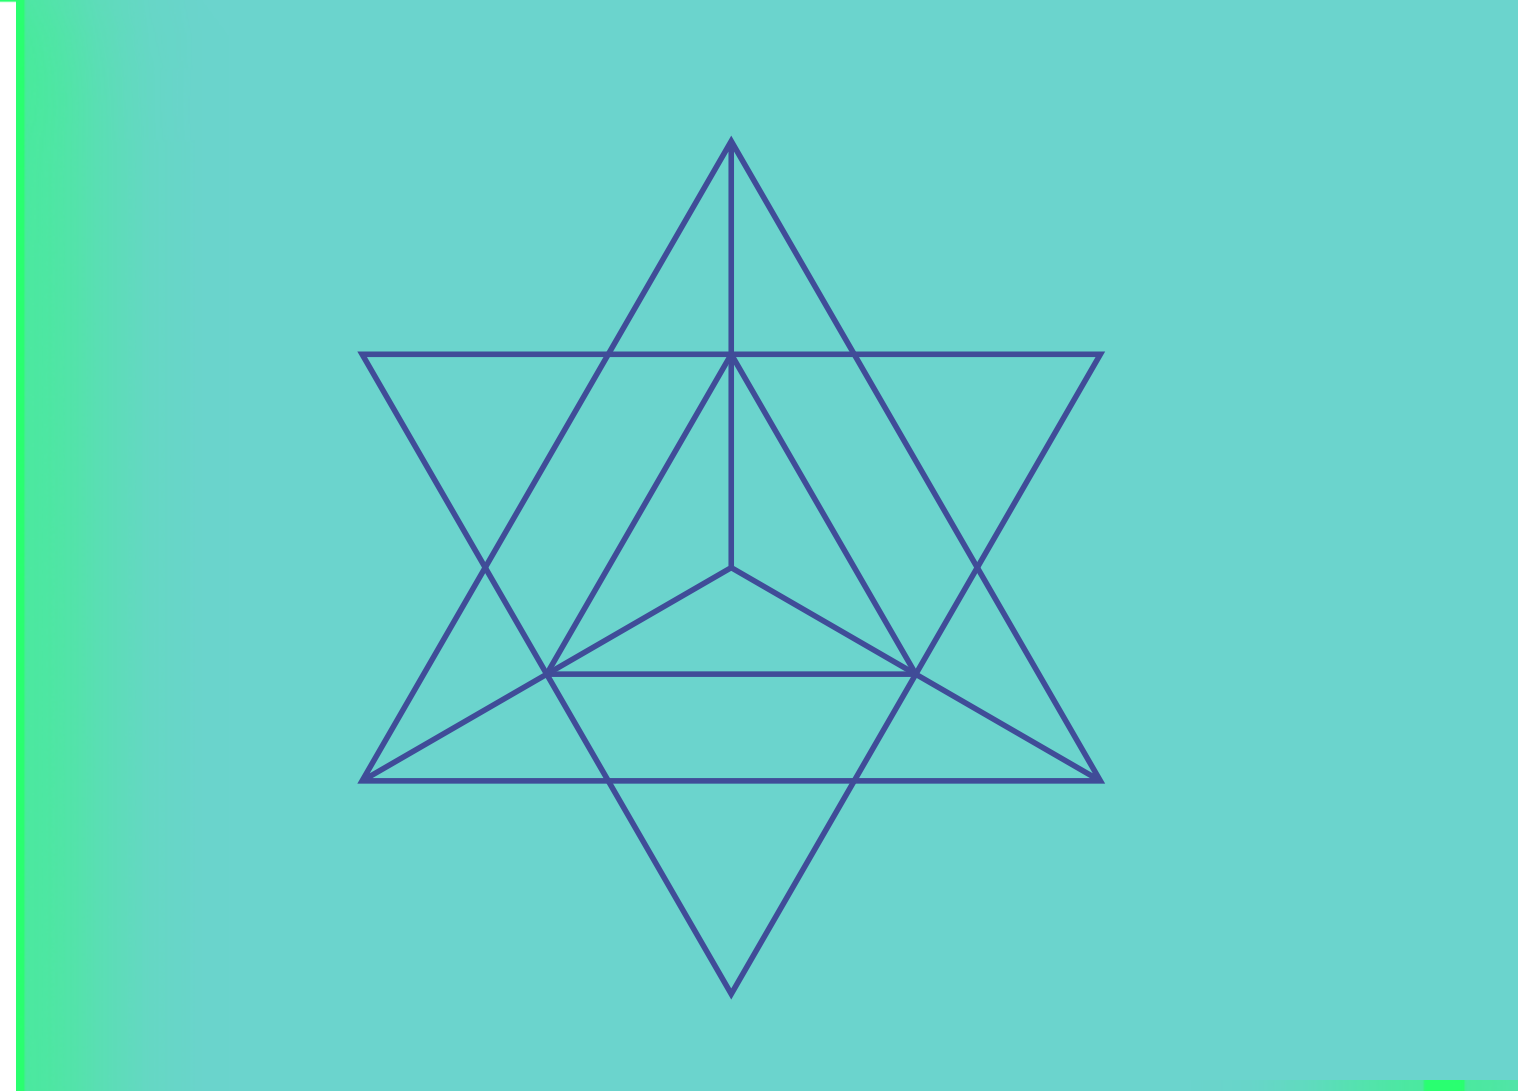

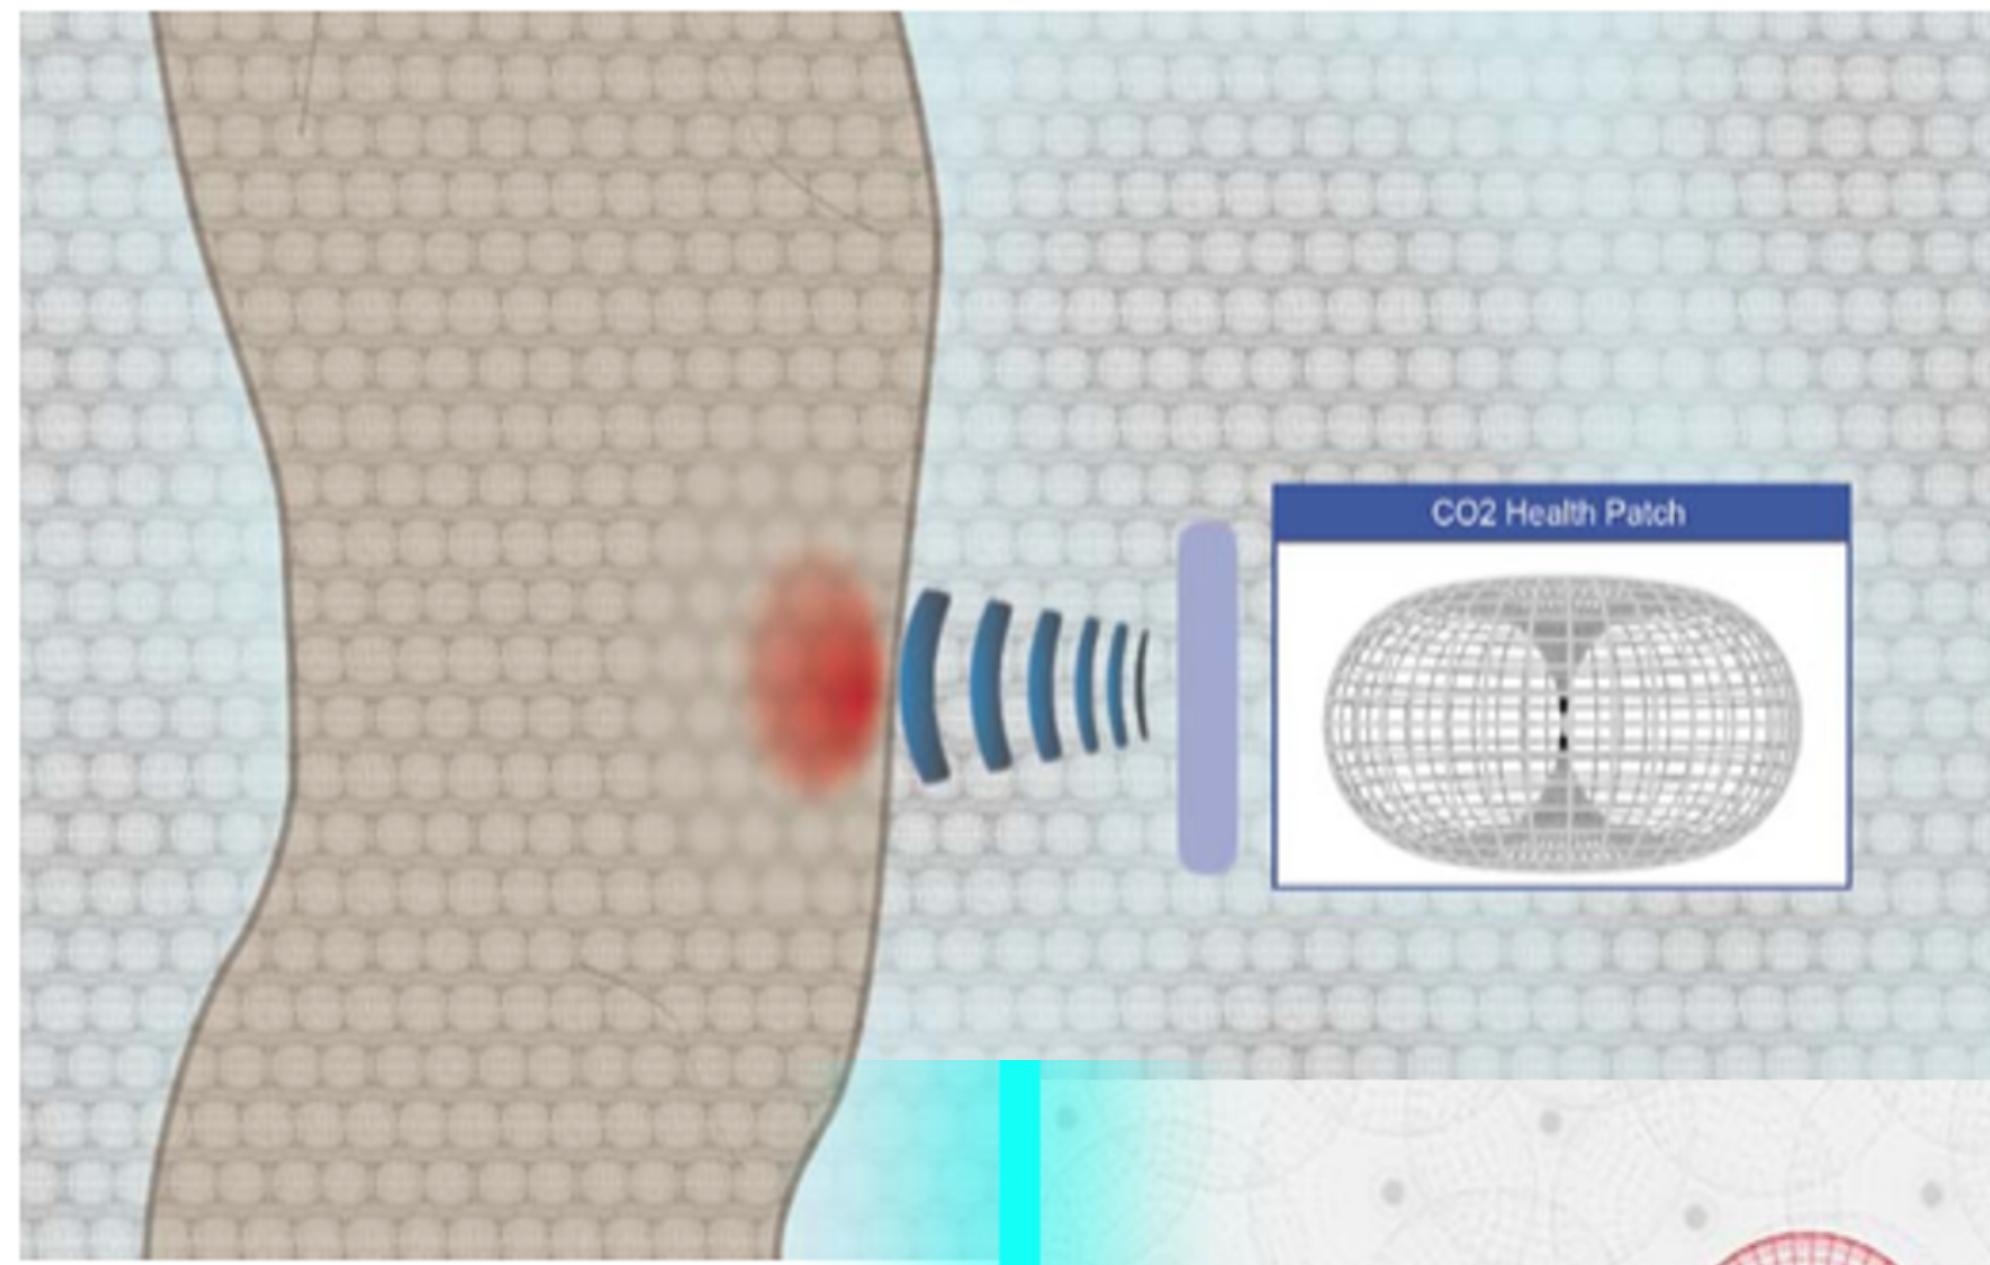

WHAT IS ORMUS?

- So what actually is it?
- Ormus can be found everywhere, in air and water, soil, plants and even in our bodies and brains.
- Ormus (or ORMES) stands for Orbitally Re-arranged Monoatomic Elements.
- It is considered by many to be another state of matter.
Same as Sea water GaNS

THE BEST ORMUS/GANS FOR YOU?

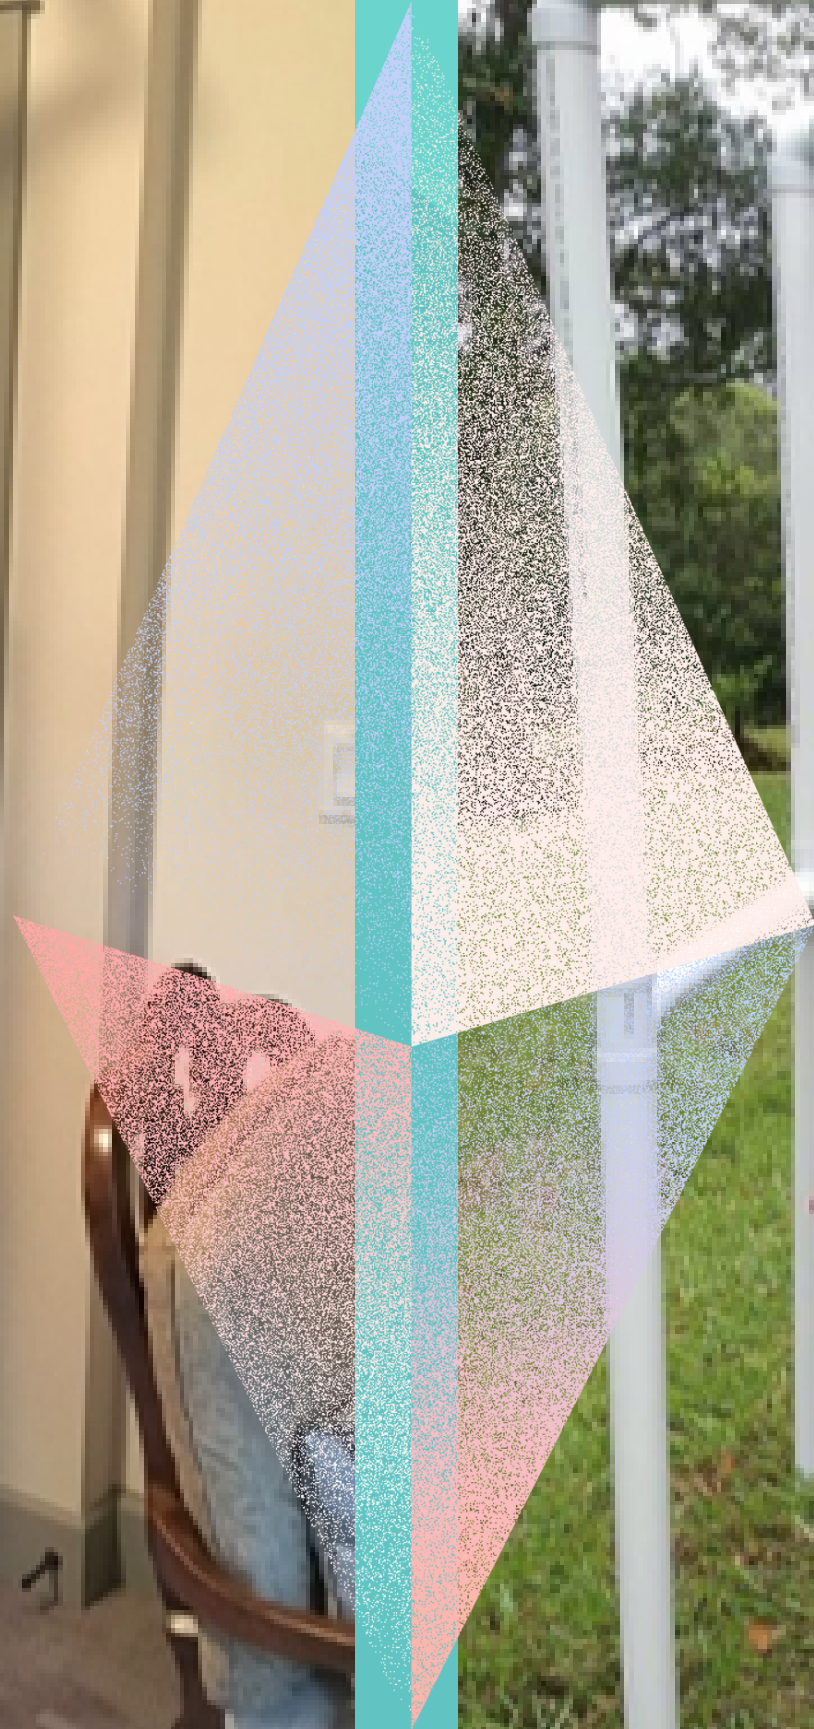

- ...is the one you make yourself.
- It is regarded as a truism among teachers and makers of Ormus/GaNS.
- This is because your intention when you make it influences the Ormus/GaNS. Many will doubt the possibility of this, yet much work has been done to validate these claims.
- These type of effects are also widely shown to exist in the world of quantum physics.

It's not just wishful thinking.

- THE GANS IS PROVIDING A REFERENCE NOTE FOR THE BODY TO RAISE ITSELF TO MATCH.
- THIS IS WHY CO2 HEALTH PADS AND ENERGIZED WATER WORK SO WELL.
- THEY ARE PROVIDING THE BODY WITH THAT PERFECT NOTE THROUGH MAGRAV FIELDS.
- WHEN WE CONDITION THE BODY WITH CO2 HEALTH PADS, THIS IS WHAT WE ARE DOING.
- WE ARE TELLING THE BODY THAT THIS IS THE FREQUENCY IT SHOULD BE VIBRATING AT.
- OVER TIME THE BODY WILL RETAIN THE VIBRATION AND A CO2 HEALTH PAD WILL NO LONGER BE NECESSARY.
- IN THIS CASE YOU CAN SEE THAT WHAT WE ARE USING HERE IS NOT NECESSARILY THE GANS THAT WE "SEE".
- INSTEAD, WE ARE USING THE FIELDS THAT CREATE THE GANS THAT WE "SEE".
- THIS IS HOW GANS IS USED IN PLASMA PHYSICS, FOR THEIR FIELDS. YOU CAN CAUSE THINGS TO COME TOWARDS YOU OR TO MOVE AWAY JUST BY USING DIFFERENT FIELD COMBINATIONS.

WE FEEL THAT THE COLLECTIVE HUMAN CONSCIOUSNESS NEEDS TO EXPAND ENOUGH TO KNOW THAT THE INTENTION BEHIND WORKING WITH SUCH TECHNOLOGIES NEEDS TO BE PURE. WHEN YOU START EXPERIMENTING WITH GANS AND PLASMA YOU COME TO REALIZE THAT THIS IS NOT SOMETHING THAT CANNOT BE UNDERSTOOD FROM THE LOGICAL BRAIN. IT HAS TO BE FELT FROM THE HEART. AS THE OUTCOME OF ANY EXPERIMENT HAS A DIFFERENT REACTION BASED PURELY ON THE INTENTION BEHIND IT. WHAT WE ARE SURE OF IS THAT THIS GIFT FROM SOURCE DOES WORK AND IT WILL BRING PEACE TO HUMANKIND.

THESE DEVICES ARE AVAILABLE RIGHT NOW AND WE KNOW THAT THE ONLY WAY FOR THIS TECHNOLOGY TO TRULY BECOME MAINSTREAM IS FOR A NEW TRADING PLATFORM TO EMERGE OTHER THAN MAINSTREAM BANKS AND IN HARMONY WITH NESARA LAW. WE URGE YOU TO DO YOUR OWN RESEARCH OR TO ATTEND ONE OF OUR WORKSHOPS FOR MORE INFORMATION.

PLASMA IN AGRICULTURE

- SEEDS SOAKED IN CO₂ WATER WILL REVERT BACK TO THEIR ORIGINAL STRUCTURE (CORN PRODUCING MULTIPLE COBS, WHEAT REVERTING TO GRASS LIKE THAT WHEN HARVESTED WILL GROW AGAIN)
- GMO SEEDS RESTORED BACK TO ORIGINAL, UNDOING ALL THE GENETIC MODIFICATIONS.
- PLANTS FROM TERMINATOR SEEDS PRODUCING VIABLE SEEDS.
- PLANTS INTERACT WITH THE FIELDS FROM THEIR ENVIRONMENT AND TAKE WHAT THEY NEED.
- PLANTS ARE ABLE TO GROW TO THEIR FULL POTENTIAL AND THEREBY PRODUCE HIGHER YIELDS
- NOBODY CAN CONTROL THE SUPPLY OF SEEDS ANYMORE.
- PLANTS CAN WITHSTAND HARSHER CONDITIONS (HOT OR COLD)
- PLANTS GROWN WITH PLASMA WATER WILL INTERACT WITH OTHER PLANTS GIVING THEM WHAT THEY NEED.
- SHELF LIFE IS EXTENDED BECAUSE OF THE HIGHER NUTRITION IN THE PLANTS.
- NO NEED FOR FERTILIZERS.

NEW PARADIGM

- WE TREAT OUR SOILS AND LAND AS A NON LIVING ENTITY TO BE USED AND ABUSED.
- MEANWHILE THERE IS A MULTITUDE OF ORGANISMS WHICH NEED TO THRIVE TO MAKE A HEALTHY FERTILE SOIL AND ENVIRONMENT.
- MICRO – UNIVERSE OF BACTERIA, ALGAE, FUNGI AND PROTOZOA
- MACRO – UNIVERSE OF INSECTS, EARTHWORMS, NEMATODES AND SMALL VERTEBRATES
- IN CONNECTION WITH THE SOIL WE HAVE THE PLANT UNIVERSE
- THESE DIFFERENT WORLDS INTERACT WITH EACH OTHER TO CREATE A LIVING ENTITY.
