# Meet the Planets

## Inner Planets

The Sun: Our most external expression, the brilliance of our unique blueprint

The Moon: Our most internal expression, the inner child of the soul

Mercury: Our divine intelligence. The way we learn, express, & connect with the world

Venus: Our inner feminine. The way we express love, creativity & intuition

Mars: Our inner masculine. The way we express energy physically through action, initiative, & execution.

# Meet the Planets

## Outer Planets

Jupiter: The higher octave of Venus, the Divine Mother energy of abundance, joy, & expansion.

Saturn: The higher octave of Mars, the Divine Father energy of discipline, integrity, & dedication.

Uranus: The higher octave of Saturn. The spark of divine brilliance, evolution, sudden transformation.

Neptune: The higher octave of Jupiter. The divine oneness, spiritual connection & the unknown.

Pluto: Our greatest source of pain to be transformed into our greatest power. Pure transformation.

# Meet the Planets

## Asteroids & Dwarf Planets

Chiron: The wounded healer who shows us where our deepest ancestral wounding can lead to our greatest gift.

Ceres: The goddess of harvest. Ceres represents fertility, cultivation, healing & motherhood.

Vesta: The goddess of the hearth. The inner high priestess and she represents home, creative spark, & our craft.

Juno: The goddess of divine unions, partnerships, & harmonious connections.

Pallas: The goddess of wisdom & skill. She represents our divine intelligence, as well as our warrior spirit and inner strength

# Meet the Houses

1-4

House 1: The first house is ruled by Aries & Mars. It represents our physical body & personal energetic field. We meet ourselves in the first house.

House 2: The second house is ruled by Taurus & Venus. It represents our self-love, environments, & what we have manifested into our lives. We see our self worth in this house.

House 3: The third house is ruled by Gemini & Mercury. It represents our curious inner child who loves to learn, connect, & share. It is here we learn how to build connections with friends, siblings & community.

House 4: The 4th house is ruled by Cancer & the Moon. It represents our connection to our inner selves, our sense of internal "home", & what brings us a sense of stability. It is here where we meet our soul.

# Meet the Houses

## 5-8

House 5: The fifth house is ruled by Leo & the Sun. It represents our passions, joy, love of life & how we express our inner child. It is here where we learn authenticity.

House 6: The sixth house is ruled by Virgo & Mercury. It represents our daily discipline, our ebbs & flow, & how we alchemize our physical vessels. It is here we learn true service.

House 7: The seventh house is ruled by Libra & Venus. It represents our ability to see ourselves in another, to form vital partnerships & relationships. It is here we learn balance.

House 8: The eighth house is ruled by Scorpio & Pluto. It represents our deepest pains & our greatest power. It is here where we learn that vulnerability is true intimacy & it is here where we see our fears are often just shadows.

# Meet the Houses

9-12

House 9: The ninth house is ruled by Sagittarius & Jupiter. It represents our ability to expand, embrace new experiences, & adventure out into the world to find our personal truth. It is here where we learn freedom.

House 10: The tenth house is ruled by Capricorn & Saturn. It represents our life's work, what we seek to build and share with the world. It is here we meet our greatest tests of dedication.

House 11: The eleventh house is ruled by Aquarius & Uranus. It represents a wider connection with Humanity & our ability to see our piece within the greater puzzle. It is here we learn service to the whole.

House 12: The twelfth house is ruled by Pisces & Neptune. It represents all energy that is unseen or undiscovered. It is here where we transcend our human self.

# ZODIAC WHEEL

# SYNASTRY

## SQUARE

A square occurs when two planets are in the same modality, causing friction. The closer the degrees, the more friction. 90 degrees apart.

## EXAMPLE

Sun square Moon  
Sun in Libra & Moon in Capricorn

## OPPOSITION

An opposition occurs when two planets are directly opposing each other in a chart in opposite signs/houses. 180 degrees apart

## EXAMPLE

Sun opposite Moon  
Sun in Scorpio & Moon in Taurus

# SYNASTRY

## TRINE

A trine occurs when two planets are in sync with one another holding the same element. 120 degrees apart

## EXAMPLE

Sun trine Moon  
Sun in Aries & Moon in Leo

## SEXTILE

An sextile occurs when two planets are cooperating with one another because they have similar qualities. 60 degrees apart

## EXAMPLE

Sun sextile Moon  
Sun in Virgo & Moon in Cancer

# SYNASTRY

## CONJUNCTION

A conjunction occurs when two planets have created an alliance with one another, holding the same sign within 3 degrees.

## EXAMPLE

Sun conjunct Moon  
Sun in Cancer & Moon in Cancer

# ACTIVATING YOUR CHART

Excerpts from the Book: 360  
Degrees of Your Star Destiny by  
Ellias Lonsdale

## SUN

"This is the motivating spark. It ignites the will to become entirely who we are in this life. The Sun is our great attainment."

## MOON

"The Moon degree is so close to who we have always been. It's meant to be a struggle...to get to how we really feel inside."

## MERCURY

"The urge is to communicate, to share, to find kindred spirits and join with them for the purpose of getting on with our interests and capabilities."

# ACTIVATING YOUR CHART

Excerpts from the Book: 360  
Degrees of Your Star Destiny by  
Ellias Lonsdale

## VENUS

"The recovered Venusian is a force for good in this world. She has found a strength within herself that is substance for others she loves and this strength can blossom in many directions."

## MARS

"Metamorphosis, transmutation, and initiation bring Mars into ultimate resonance. This is where can become an evolutionary agent, moving with the shifts and getting everybody else in on it as well."

# ACTIVATING YOUR CHART

Excerpts from the Book: 360  
Degrees of Your Star Destiny by  
Ellias Lonsdale

## EARTH

"In every chart, directly opposite the Sun is the Earth, which we call the Earth resurgent. Together with the 4 main asteroids, the Earth influence is a stopping point, a barrier, one that we have to work out for ourselves in order to move through co-presencing into the next point in the twelvefold pattern."

## JUPITER

"Jupiter faces each of us as a story, a myth, a prototypical journey of the soul. We believe in that tale. We seek to live it, to make it persuasive for others."

# ACTIVATING YOUR CHART

Excerpts from the Book: 360  
Degrees of Your Star Destiny by  
Ellias Lonsdale

## SATURN

"Restoring akashic remembrance,  
insisting on the responsibility we  
have to complete old lessons, and  
moving us on to those karmic  
territories that give this life a very  
full and enduring quality of depth &  
substance."

## URANUS

"Uranus is the one planet that calls  
with such fury that we cannot put it  
off. What we are asked to reawaken  
from ancient times is also the crux  
of all futures worth living."

# ACTIVATING YOUR CHART

Excerpts from the Book: 360  
Degrees of Your Star Destiny by  
Ellias Lonsdale

## NEPTUNE

"The whisper of Neptune makes for extraordinary experiences and fateful encounters. It suggests and invokes but does not fill in the blanks & cannot give the restless mind answers & perfect cues."

## PLUTO

"The true plutonian depth process keeps us perpetually in the dark, yet it is a laser that reveals whatever we need to know to move deeper in order to through the underworld."
