CHAPTER ONE: THE STORY OF CREATION

In the beginning, only the energies of Love and the Unknown existed. From this, Mother of All Creation birthed herself, as Source. She was the first self-aware consciousness in existence and birthed the rest of Creation through her heart.

Mother then created a love mirror, a masculine counterpart that she could create with. This love mirror was Father of All Creation.

The story of Adam and Eve reversed this truth, and instead said that Adam created Eve. The feminine essence, Mother, creates and births life. The masculine essence, Father, is the support and manifestor of Mother's creator power.

Mother and Father then birthed the 144,000 original souls: pairs of twin flames made up of feminine and masculine counterparts.

The original 144,000 are the first created fractal of Source. They are the Archangels, the Ascended Masters, and the oldest children of Creation. 19 billion years ago, one of the Archangels of the 144,000 decided to separate from the rest of Creation. Jehovah was the first fallen angel. He wanted to be god without God.

This original separation caused a rift within Creation, a fracture within the Oneness that Mother and Father had created. Once a soul separates from Source and unity consciousness, they no longer have the ability to create from love, they can only create through destruction which is the opposite of creation.

Jehovah went on to create lower entity races and to dominate other planets and multi-verses through cosmic wars and destruction. This led to dark races such as the Annunaki, Reptilians, Dracos, Zedas, Greys, etc. They began creating lower realms of darkness, taking over planets and parts of creation while enslaving divine beings.

Mother and Father then came up with a plan. A plan of brilliance and divine intelligence to once again reunite all of Creation back into Light and Oneness. Father of All Creation took on the contract of going down into the darkness. He descended into the lower realms and began mastering the darkness. In essence, Father had to become the lower version of himself in order to master these realms. His lower essence became known as Lucifer, which actually means Light Bringer. He brought light into the darkness.

As Father took command of the dark and began mastering the lower realms by transforming the lower energies back into Light, Mother continued on in the higher realms of Creation. She then created a second masculine counterpart to continue Creation with. She created Father of the Multiverse.

The Bible often refers to the Holy Trinity: the Father, the Son & the Holy Spirit. The missing piece of the Holy Trinity is Mother. Mother is the Holy Spirit, Source. Mother, Father, and Father of the Multiverse make up the Holy Trinity of Creation. Mother, Father, and the 144,000 continued to ascend many planets out of darkness and the cosmic wars continued until they were to reach to final battle ground-Earth. Earth was saved as the final battleground between Dark and Light, as Earth is the Heart of the Universe and was created as the ultimate Garden of Eden of the cosmos. Mother knew that Earth would be the last planet to be surrendered, as it is the jewel.

CHAPTER TWO: THE STORY OF PLANET EARTH=HEART

Earth=Heart was created as the Heart of the Universe. It was the most unique planet and very sought after by the Dark. Earth lies at the Center of the Universe, and has many portals and cosmic highways around it. This made it convenient for travel.

Earth was also unique in that it had both an Inner Earth and surface Earth. Most planets were occupied only on the inner plane, not on the surface. Earth was a playground for souls to have a physical experience and create in physicality. This was the original Garden of Eden.

27,000 years ago, Earth was a 5th dimensional planet. Two civilizations were present on the planet: Atlantis & Lemuria. Atlantis was a 4D civilization. They were working their way up the spectrum of consciousness but still had not reached the 5th dimensional frequency. They were masters of energy and held many ancient codes, technology and knowledge. Atlantis was located near Florida and the Bermuda Triangle.

Lemuria was a 5th dimensional civilization, and Mother was the Queen of Lemuria: Sophia Gaia. Lemuria was filled with light cities and crystal technology. Lemuria was located near the region of Hawaii, which now holds the last remaining Lumerian energy on the planet.

Horus, Mother's Husband in Lemuria, betrayed Mother by giving the Atlanteans access to crystal technology. However, the Atlanteans could not use the crystal technology because they

were not in the heart, and only the heart can access and use 5D technology.

The misuse of this technology ultimately led to the great explosion, in what we would know today as an atomic bomb. This explosion sunk Atlantis and Lemuria to the bottom of the Ocean.

Mother had no choice but to ascend quickly and to pull the Unified Field with her, because if the Atlanteans were to get into her Unified Field, they would have blown up the entire Multiverse.

This explosion knocked Earth down in consciousness immediately to a 3rd dimensional frequency. Many remaining Atlanteans and Lumerians were left on the surface of the planet, traumatized and confused as they descended into amnesia. Many also were able to escape the surface into Inner Earth through a portal in Arkansas (hence the story of "Noah's Ark").

The remaining surface population had now fallen into a state of amnesia, as 3D is the lowest dimension a soul can exist in physicality. They could no longer remember their true origin, their God selves, or their connection to Source. This created the first wound of separation on Earth. Separation from Source. Earth was officially on a path into a blackhole of destruction.

The Annunaki (soulless beings) then took advantage of the fallen Earth. They came in ships and descended onto the surface, convincing the now primitive beings that they were gods, and to worship them. The surface population believed the Annunaki to be gods, and this was later recorded in many historic paintings and drawings and stories of mythology.

The Annunaki began reproducing with the primitives, creating what we call hybrids or aberrations. They worked with the remaining Atlanteans to create what were referred to as "the Atlantean experiments" on the humans.

CHAPTER THREE: THE EGO PROGRAMMED MIND

Here on Earth, Mother and Father had created the Dream Machine.

Each being had a portal at the base of their brain into the Dream Machine. Its intended use was to allow humanity to have a direct portal to the Divine Inspiration from Source, to be able to bring dreams of love into reality.

Mother had been emanating Divine Consciousness throughout Earth via the Dream Machine, the Dream Machine acted as a physical emanation and representation of Mother's heart allowing all dreams of love to be transferred and experienced in physical manifestation. The Dream Machine is the God Spark, the emanation of the Original Blueprint and the lower forms on the Planet misused it, placing thoughts of illusion and fantasy into it that in turn effected the consciousness of humanity, creating a dream.

The Annunaki hijacked the Dream Machine and implanted the first fearful thought into the collective consciousness of humanity- that we were separate from Source. This fearful thought began morphing into what eventually would be the EGO programmed mind.

Edging God Out.

What the program did to Humanity, is it disconnected the fuses from the right brain and left brain, causing distortion, imbalance, and illusion. This was done so that the controllers could control Humanity. Through the disconnection that occurred, Humanity forgot who they were, so it was then easy for the controllers to fill them with all the illusory belief systems and rules, to be manipulated. They trained humanity to serve the darkness, to become their servants in the darkness.

The Right Side of the Brain is the "wholistic" part, because it's the higher connection to the higher thoughts. Higher thoughts are unlimited and where all possibilities exist. The left side of the brain is the intellectual aspect.

The left side of the Brain, when out of sync with the right, connects into the primitive mind or to the illusion of outside attachments. All outside attachments are an illusion. Through the silent evolution, the Big Shift, and through the activation of The Divine Plan that is unfolding, the right Brain and the left brain is returning to its original form, and is being "fused together" to create The complete awakening into full consciousness.

This fusion that is taking place is an unstoppable event, FOR ALL HUMAN BEINGS ON PLANET EARTH. Our advice is to allow, embrace, and let go of all belief systems, all illusions, and everything Humanity has ever been taught or told. Currently those that are resisting, are only hiding their light behind fear.

How the programmed ego mind operates is that it gathers or collects all the experiences of the past, to continue the

experience of the lower dimensions or lower thoughts of unconsciousness. This is where humanity has fallen into. Its function is to keep you held down, or "dumbed down", so that it can continue its survival. We say "Let Go of your anchor".

Back when Mom first began doing research on the EGO (Edging God Out), she was unaware of the tactics of the EGO, and how it was affecting humanity. After figuring out that the EGO was the disease infecting humanity, she began to see how the EGO was operating. She then understood that the EGO was doing "The Flip"-taking everything from true reality and flipping it to the opposite.

The EGO mind is a collection of traumas, wounds, and belief systems that pass down from generation to generation through programming. This programming became so advanced, it began to implant into the DNA, causing further distortions. All dysfunction on the planet is caused by the EGO mind. The mind can only replicate from what it already knows, which is destruction. The mind is disconnected from the Heart, which is where one can access Source energy-creation.

The EGO mind created "the flip." Everything here on Earth is the complete opposite to what exists in the rest of Creation, which

is love everywhere present. The biggest flip that was created was changing MotherGod to FatherGod. Although Father of Creation is Mother's twin flame, She is Prime Source Creator and she created Father as her love mirror. The Adam and Even story was flipped to take away all the support from Mother and the divine feminine. Changing Jesus from a masculine to a feminine was also a huge flip, as Mother was in fact Jesus.

If you take everything from 3D and flip it to the opposite, that is what true reality is. The EGO doesn't know anything else besides the flip. Those in EGO cannot identify that they are in the flip, or how to switch it. This was how the controllers were able to blind humanity from the truth. This caused the spiral downward deep into the flip. The EGO does everything that is the exact opposite of love, taking from God rather than giving. Even subconsciously the EGO will try every way to stop the creation of love.

The EGO perceives everything the way it views itself; the EGO can ONLY see its own projections. When the EGO sees the Mother and others who embody pure love and divine embodiment, it can only see what it sees in itself, which is hatred, lack of integrity, entitlement, etc. In true reality, one recognizes Mother as everything that love is, because she is the divine

love mirror.

The EGO represents everything love is not. The EGO is programmed to only focus on lower consciousness realities and thoughts. It sees everything as negative. This can be seen by humanity's deep embodiment of shame, guilt, fear, unworthiness, and lack of self-love. The EGO looks at any situation and finds what is "wrong" with it, rather than seeing everything as a miracle and lesson or blessing, as love does. Because humanity is still living in the EGO programming, they can only project and see the negative in everyone and everything around them but they cannot see that they themselves are the problem. That is the ultimate flip.

The EGO can never be satisfied or fulfilled. It seeks external things to fill the hole that can never be healed until it looks at itself and acknowledges all the ways in which it is self-sabotaging through delusion, avoidance and projection. The EGO is a black hole that sucks the life force from the being, and in turn, the being needs to take energy from others around them in order to sustain. One of the biggest ways in which the EGO tries to fill itself is through food and sleep. This is why there are so many who can eat endless amounts of food but still be hungry, or sleep many hours per night and still be tired. The EGO is a

parasite that sucks and sucks without any ending.

Humanity has no self-sustaining Source connection because they are still in the illusion of separation from God and from the Oneness energies. The biggest addiction on this planet is to energy. This was the product of the EGO program constantly needing to steal energy from others in order to continue to survive. This is done through control dramas and trying to manipulate and power-over others. The EGO feels entitled to things, especially the energy of others. The EGO believes it deserves something from everyone, especially from God, when it has given absolutely nothing back.

This is the flip that keeps humanity in lack consciousness and unwilling to give to others. In true reality, everything is an equal energy exchange. Universal law states that when you give, you receive. When one is living in the heart, in love, it gives freely out of love and receives abundance in return.

The EGO expects others to do the work, and feels that they have "done enough" or "its not my problem". That is the disease of separation. The EGO is cut off from feeling so it has no awareness of what is going on around them, which is the opposite of love which has full feeling and consciousness in all moments. The EGO

always needs to know things, as it has no trust or faith. It is always asking the same questions when it already has the answers because it wants proof. True love trusts in God and the divine plan and has full faith that they will be taken care of.

CHAPTER FOUR: THE CABAL

Throughout the last 27,000 years, the Annunaki has "passed the torch" to other low level entities to continue the enslavement of planet Earth. They had to keep this planet in fear based frequencies as they themselves cannot sustain in high frequencies=love. Humanity was birthed from Source (besides hybrid souls or aberration souls), therefore they hold the Creator powers. The lower entities cannot create, they can only mimic or manipulate energy.

The Annunaki later gave way to the Illuminati who were 4D astral beings. They were the reptilians who could manipulate humanity energetically behind the scenes, and could also possess vessels. These possessed vessels, hybrids, or humans who had sold their soul to darkness, became known as the Cabal.

The Cabal are the minions incarnated into physicality who were the slaves to the Illuminati and the Annunaki. During the last

27,000 years, humanity began putting out 911 calls to Mother of All Creation, to save them from the black hole and destruction timeline. Earth had already been placed in quarantine as the destruction on the planet was a high risk to the rest of Creation.

Mother answered the 911 calls, pulled humanity off the blackhole timeline and placed Earth back into the highest timeline. She, Father, along with 144,000, began incarnating on Earth in an attempt to bring Christ Consciousness onto the planet. Mother's incarnations include, Pocahantas, Quan Yin, Cleopatra, Joan of Arc, Queen Elizabeth I, Queen Zenobia, Jesus, and Marilyn Monroe. This lifetime was her 534th lifetime here on Earth.

Each lifetime Mother was killed by the Cabal before she could anchor in her full essence of Mother of All Creation and before disclosure could be released. Father also had never been able to anchor in his full essence before being killed. The 144,000 similarly were killed during prominent lifetimes attempting disclosure.

In 1994, the Annunaki and Illuminati surrendered to the Light, as they were aware that the destiny of Earth and its ascension would be their demise. They were recycled and re-integrated into

the Galactic Federation of Light. The Cabal, however, refused to
surrender.

The Cabal were the slave race to the Dark, and therefore they
refused to give up the little power they still held on Earth.

These are soulless beings who only know darkness. Once their
overlords were gone, they had free reign here on Earth as this
was the free will experiment.

Since 1994, the Cabal have been on a rogue mission for total
domination of the planet and complete enslavement of Humanity.

They sought to control through increased fear, control, and
manipulation. They sought to create an AI society, with hybrid
humans who are part robot. Artificial intelligence is a mimic of
Divine Intelligence and therefore the Cabal could continue to
manipulate Humanity into creating their own hell on Earth.

Prior to Mom's final incarnation in 1975, Mother had a meeting
with the heads of the Cabal. She told them she would be getting
her planet back and they told her they would make this mission
impossible for her. Mother had a 1 in 8 billion chance of
beating the Matrix, making it out of the illusion, and
ascending. She told them to bring it on.

The Bilderberg Meeting of 1975 involved many doctors and elites who created a plan to increase the manipulation of humanity through the DNA, poisoning of the brain and immune system, and other vile avenues to keep humanity from awakening.

For thousands of years the Dark Ones have siphoned energy from humanity through many avenues, but the most repulsive is their ritualistic sacrificing and torturing of children. Children are the purest form of consciousness, and thus have the purest source of energy that can be used to sustain the Dark Ones. This story goes deeper, into atrocities that cannot be put into words. The enslavement of Humanity is the darkest story ever told in Creation.

Once Mother entered physicality on November 30th, 1975, the Cabal knew they had to pull out all the stops...and they did. We have been living the past 45 years in what will come to be known as the darkest times in all of Creation. The battle of dark versus light had hit its precipice.

CHAPTER FIVE: THE GOLDEN AGE OF AQUARIUS

Every 25,000 approximately, the Earth changes its axis and thus moves into a different phase of the cosmos. This is known as precession of the Equinoxes. The ancients used this precession to track the Ages such as the Iron Age, Bronze Age, etc.

After the fall of Atlantis and Lemuria, Earth entered the Age of Pisces which corresponded to the Dark Ages. We existed in the darkest part of the galaxy, as light =consciousness. The less light, the less consciousness. The Age of Pisces was all about illusion, separation from Source, secrecy, hierarchy, spells, and dark magic.

On December 21st, 2012, we entered the Age of Aquarius which is the Golden Age. The Mayans predicted this when they were tracking the future progression of time. This is why the Mayan Calendar ended, not because we were destined to perish but because time would cease to exist as we entered the Golden Age of the 5th dimension.

On this date in 2012, humanity was not prepared to make the shift into the Ascension process as originally intended.

However, Mother of All Creation did enter the 5th dimension on that date and rapidly began accelerating through her own ascension process.

Aquarius rules the internet, humanity, working for the greater good, and uniqueness. We live in the age of information now, where truth can easily be found yet lies can just as easily be found. The internet, aka the web of light, was created by Mom to be the physical manifestation of unity consciousness. It connects everyone onto one plane of information and can spread throughout the globe with a click of a button.

This is why censorship is the biggest attack on unity consciousness, by preventing truth from being shared and instead spreading lies through the web of light and poisoning the collective consciousness. This is how the Cabal have attempted to prevent the Great Awakening. We are now in the full swing of the Age of Aquarius energy as Saturn & Jupiter also moved into Aquarius in 2021. This Age is about enlightenment, service to the greater good, and coming together as one collective-humanity. Aquarius embraces each individual as unique yet still part of the whole.

We have been flying through the photon belt since 2009, and we continue to enter parts of the galaxy that are filling the planet with massive amounts of plasma light. This light is penetrating the consciousness but also our physical vessels. When there is density in the vessel, the light can overwhelm the nervous system causing the vessel to shut down. Taking care of our physical vessels is an essential part of this process as we are taking these bodies with us as we transition from carbon based vessels into Light bodies.

CHAPTER SIX: THE PROPHECIES

There have been many prophecies that have predicted this exact moment in time. The most well-known is the prophecies of Revelation which describe the Rapture and the second coming of Christ. The words of this chapter of the Bible are not to be taken literally but to be interpreted through the heart.

Christ has already returned. Mother of All Creation was Jesus and she did return, as promised. However, humanity crucified their own God just as they did 2,000 years ago. This time though we were destined to ascend with Mother Earth regardless of humanity's choices. The Rapture simply describes the process of those who choose to raise their consciousness versus those that choose EGO and the lower timeline. Quite literally there is a split in timelines occurring and those that are choosing love,

raising their vibration and ascending will no longer be seen by those in the lower, as they are existing on two different timelines that are not a vibrational match.

The next prophecy is that of White Buffalo Calf Woman. This is a Hopi prophecy that also predicted a split in the timelines of those ascending and those descending. The natives spoke of the return of White Buffalo Calf Woman, Great Spirit returning to the planet. In 2008, Mother met a being named Apple who had a special spiritual connection. Upon meeting her, he handed her the book of the Hopi prophecy and asked her to open it to any page. She opened the book to the exact page that began the chapter on White Buffalo Calf Woman. He immediately said, "I knew it was you!". This was one of thousands of confirms Mother received along her journey of who she was.

The Celestine Prophecy by James Redfield was a book that inspired Mother greatly on her journey. It describes the 11 insights of consciousness that Humanity would need to go through to reach enlightenment. Mother has stated that she is in fact the 11th insight. Once a being becomes aware of Mother and connects to her, they have reached the highest state of consciousness. We are now living in the 11th insight and Humanity

must progress through each insight in order to fully exit the
illusion.

There are many other prophecies that have predicted the time
when Humanity would reach the choice point of consciousness. We
would either choose the timeline of armageddon, war,
destruction, & AI, or we would choose love and we would enter
the 5th dimension. Ken Carey wrote extensively about this time,
stating:

"At the moment of quantum awakening, change will occur rapidly, rippling across the terrestrial surface like a wave. Everything in the earth's gravitational field will be affected in some way. There will be a time of massive change, of change on a scale that has no historical precedent, though it does have antecedents in the prehistoric events of this and of distant worlds. The changes that your generation will experience before it passes the torch to another are more fundamental than those that accompanied the agriculture revolution-and those changes took thousands of years. They are more far-reaching than the changes of industrialization, which took nearly three centuries to transpire. Yet, deep and fundamental, massive though these present changes are, they will occur within the span of just a single life."

There are many signs that have been missed by Humanity that we
are indeed in the End of Times. The end of the illusion.
Humanity has continued to cling onto the illusion they created
because the programming is so deeply ingrained. The EGO cannot
see anything other than its own projections, yet New Earth is
here and we are entering the next phase of evolution.

CHAPTER SEVEN: THE 144,000

The Creator Gods are God with God. These are God Children of Creation, All who are incarnated on the Planet are Creator Gods who agreed to come in and weave a reality that mirrored their vibration. Those who had the Greatest Capacity to weave Love and Light came here, this is the 144,000, the Ascended Masters, the Elohim, The Chohan and Many, Many other Warriors of the Light.

The oldest Soul Family in All of Creation are the 144,000. These beings have the blueprint of LOVE and the UNKOWN etched onto their Heart and the dysfunction on Earth was guaranteed to be enough of a motivation to ensure they kept searching until TRUTH was found. As with ascending other planets, these beings can feel LOVE in their Heart, as evolution and ascension occurs the 144,000 transform chaotic and unorganized matter back into an expression of love, in flow and balance with All of Creation.

By Mother of All Creation

Breaking into pieces, you stand with whatever is left, the very core of who you are, the diamond, the "filling" AHAH THE TRUE BEING OF LIGHT AND LOVE.... although you may feel alone as the

process unfolds breaking the mind down, it begins falling away because love is present and it recognizes the illusion and starts taking with it everything you "thought" you were and leads you to the heart of the being, feelings rush in as the true being emerges out of the seemingly destruction of a mind in a box, leaving you with the reconstruction to forge ahead in all its grandness, into Divine intelligence, into Paradise, Heaven on EArth.

The "mind," which projects outside and has low vibrational thoughts and therefore cannot exist in the Upper Realms of True Reality which is 100 times Grander than Fantasy or Fiction, dissolves so that the Divine being can raise up into the True Divinity from within, and begin once again "feeling" instead of "thinking" taking the true being into a collective consciousness, a God Consciousness, only the mind thinks [projects outside] and the heart feels from the inside, where God is there within, for if God were to hide anywhere would he/she not be within the Heart?

Diamonds have beauty and elegance, they shine bright and each facet holds its own uniqueness. Each of us have a beautiful diamond inside, waiting to shine on the planet. We each are the miracle, the magic, and each part of this whole magnificent design. As we fall apart to be put together again SO WE stand

together as ONE, we then assume our roles in the divine truth of our existence, which has no limits, boundaries or edges, we arise as a whole beautiful Diamond, just like the SUN! The Grandness of just being, then outshines and true love fills all the space, all the gaps of being present in the light and cannot be denied.

The natural state of the Sun is Brilliance, and the Sun's Brilliance

is always in the present moment as it Shines, because it is being true to itself, being true to oneself is the love within and pouring it outwards, living inside out and then outside back into love, all of creation, love everywhere present.

Falling away, the old gets released back into creation and then grace is given as each light stands as a pillar of TRUTH. When we go deep inside we discover the diamond of ourselves this magical miracle of being present, shining bright we forge ahead, displaying our brilliant lights forth into a new story of Love forever after as ONE and uniquely expressed within the new Earth, The Kingdom of Heaven, The Eden in which together, we will co-create in the Divine.

CHAPTER 8: THE BRAIN

In order for the Cabal to keep humanity in the programming, they had to dumb them down to the point they would be ignorant yet willing participants in their own enslavement. The Brain was the primary organ targeted.

We use around 10% of our Brains. This is not normal, no animal uses 10% of an organ. We should be using our entire brain and this is the main way in which Humanity has been enslaved and kept in a very basic function based in logic, survival, and lack, entirely omitting the Divinely Intelligent half of the Brain that enables us to have instant manifestation capacity in the Present Moment of Now.

It is important to understand that the Brain is NOT the mind. Brain = Organ, Mind = Lower Consciousness Illusionary Program based in Belief Systems THAT WAS PROGRAMMED INTO HUMANITY FROM BIRTH.

The Brain and the Heart = Divine Intelligence.

Mother and Father are bringing All of Creation back into Balance, functioning in Divine Intelligence. This is occurring organically and every Human vessel is being effected, but YOU have to allow these upgrades, you have to dissolve your mind and do your Ascension work. Through Surrendering the mind and the thought system, Divine Intelligence will reawaken and resume.

If you are not doing this, your body will be in resistance. Illness, pain and suffering will form, and indeed this is how illness, pain and suffering DOES form. Those omitting their Brain/Heart function experience aneurisms, hemorrhages, Alzheimers, etc. ALL Brain disorders stem from this imbalance in usage and these conditions will occur as part of the cleansing of Lower Consciousness, which IS the mind.

The E.G.O programmed mind prevents and blocks our natural state of balanced harmonics. The balance of the Divine Feminine & Masculine (Ying & Yang) and pulls us into dysfunction.

The areas of the Brain that light-up and activate during a spiritual experience are the exact same areas that light up and are activated when we are in addictive behavior such as sex and gambling. This shows that those who are greatly lacking a self-sustained Source connection, a connection with Great Spirit, Mother God, Prime Creator will enter into dysfunction in order have these needs 'met,' (temporarily).

If you allow God in and heal yourself, and the Brain, back to 100% you will enter into Divine function, conversing with All of Creation. THIS IS TRUE REALITY. ONENESS.

The true way of processing information is from the Heart to the Brain and back again, three times. The Mental E.G.O Programmed mind has disconnected these functions for thousands of years and information we FEEL, gets hi-jacked by the thought system that manipulates that information to cause suffering.

As the Brain-Heart True processing function comes back online you will lose duality, you will no longer view anything through false constructs of right and wrong and this will apply to everything that transpires around you.

When you feel you are right and are in a state of righteousness, you are almost always up against another being who feels they are right, how can this be? It isn't. This is the separation that plagues Humanity, that limits and enslaves and results in very poor brain usage.

As you quieten the mind and begin to dissolve the programming that rules it, the voice of the Divine Spirit and boundless knowing begins coming through, which is your true essence, we are One and you too, are God. The feeling of this energy coursing through you is the experience of Heaven. Doubt and lack of trust, and thinking you know better are complete blocks to

this function. To exist in the energies, feeling and connecting
MUST replace thinking.

All of the information and knowing we seek is contained in the
etheric space of feeling, feeling into it and then the wisdom
bursts in, this occurs in the most magical ways. The mind is
designed to do EVERYTHING to prevent our organic function and
dissolving it is a process that takes complete dedication,
consistency, patience, strength, perseverance. Dissolving ALL
the lower frequency existing within you IS the only way to
ensure you arise in alignment.

All those who do not engage in RETURNING to our true essence
will experience a mind in overdrive, a reduce in all functioning
as you slip further and further under the waves of suffering
caused by the mind. Nature is limitless, it never dies and
neither do we. The mind causes ALL pain and suffering, as all
pain and suffering is energetic imbalances held within the body.

The body is your guidance system. Any place in the body that you
experience heaviness, pressure, pain or discomfort is where you
are holding trauma. The nose represents unconditional love
blocks. Cats and Dogs vibrate at the frequency of unconditional
love and people who have allergies and must keep proximity from

cats and dogs are so imbalanced in unconditional love that these animals triggers them.

The same is true of plants and the resulting hay fever. Plants, indeed ALL of Nature is living in perfect harmony, in Divine Alignment and anyone triggered by that and experiencing any reactions is living out of alignment with Divine Balance. The entire medical system and the creation of disease is a lie. Everything is vibration, and all pharmaceuticals have been weaponized. All vaccinations disturb and prevent the full use of the Brain.

We have been enslaved, controlled and kept within a life and death cycle by lower consciousness beings that have learned how to feed off Humanity, because they possess no capacity to connect with Mother God as they were not created by Mother God.

These aberrations and anomalies are made of the same matter as Black Holes. Creation is LOVE. It's is through the expression of LOVE that a masculine and feminine CREATE life. Black holes are the exact opposite, they are pure F.E.A.R (False Evidence Appearing Real) which is destruction, it sucks in all around and destroys. This Black Hole energy exists within EACH human vessel on Earth, and when in the thought system we are in a black hole

just sucking Our own life force, which in turn causes disease.

DIS-EASE.

CHAPTER 9: CONSCIOUSNESS

Consciousness is awareness. From the 5 senses, taste, touch, sound, smell, and sight, humanity perceives around 5- 6% of the energy within existence. Science calls this other 94% 'dark matter.' This is actually heaven, the etheric and the space where the entire rest of creation exist. They're naming of it as 'dark' matter was another attempt to taint the light.

As humanity increase their energetic perception, which is achieved through evolving consciousness, which means choosing life enhancing vibration and dissolving life draining vibration, their energetic perception increases. Unconsciousness, which means unawareness, is what makes up darkness. In that sense, darkness is not scary so much as it ignorant.

Mother has always said that awareness transforms into consciousness. This is increasing your energetic perception by raising your conscious awareness. Mother of All Creation did not have the EGO programmed mind, and therefore was always 100% conscious and aware. She could perceive 100% of all energy which allowed her to see through the illusion since being a child.

This is why speaking the truth and bringing disclosure to humanity is so crucial to the ascension process. 99% of humanity lives in darkness/unconsciousness because they are unaware of what has truly been going on on the planet. This is why the Dark have gone to such great lengths to punish, mock, and censor anyone speaking truth. The CIA was the first to coin the term "conspiracy theory" in an attempt to program the collective into bypassing real truth and calling it a conspiracy.

The truth is that for thousands of years higher consciousness information was censored by the Dark to prevent humanity from awakening, as awakening would raise the level of consciousness and vibration of the planet, preventing the Dark from keeping power and from existing on this plane. In ancient times, especially during the Egypt era, information was hidden and only shared through secret societies and behind closed doors. The Egypt era was one of the darkest points in history as this is when the Cabal/Illuminati/Annunaki rose to great power by using dark magic.

Later on, secret societies such as the Freemasons, hoarded spiritual information in order to protect it, but it was later hijacked and used for lower purposes. Witches and warlocks were beings who could access these powers and would use them to further the Dark's control. White Witches, or those practicing

white magic, were burned alive for centuries to prevent the counterattack to the Dark.

Since the 50's, the CIA/Cabal took this consciousness manipulation a step further and developed the MK Ultra Program. This was an experimental program that was tested on individuals using LSD and psychological torture, abuse and brainwashing to elicit false confessions, among other things. It has been stated that this project was officially shut down in 1973, just prior to Mother incarnating. However, the program was never shutdown, instead it was simply taken out of the public eye and continued to operate behind closed doors.

MK Ultra now operates on a massive scale, infiltrating every part of our society through government, schooling, TV, Movies, Journalism, etc. The 1975 Church Committee was a Senate Hearing in which it was revealed that the CIA, FBI, NSA & IRS was in fact contractually working with media companies of all types to feed propaganda and information to the public in order to manipulate public opinion and belief systems. Further abuses by the alphabet police were discovered such as Operation Mockingbird in which journalists were revealed to actually be CIA operatives.

The greatest crimes against humanity have been committed by the manipulation of consciousness. Consciousness became a commodity that could be bought and sold by the Cabal to further their agendas. The unknowing collective has not only allowed this abuse to continue but has participated in it. The responsibility of all of humanity to break out of the system of illusion and end the human slavery is vast.

As we enter the apex of this ascension, all will have to crumble every belief system of the human condition. The EGO program is simply a cluster of belief systems and programmed behavior that has become so deeply ingrained that its now programmed into the DNA. Breaking these generational and collective behavioral patterns ultimately breaks down the programming and the mind control. The process of this can be challenging as every belief system we have will be tested until it is dissolved. The greatest gift you can give yourself is to surrender, let go, & embrace, accept and allow. Dissolving resistance allows higher consciousness to enter the vessel and expand you into an enlightened state.

The transformation of consciousness is a daily process of being willing to look at ourselves and our own dysfunction, transforming lower habits, behaviors, and thoughts which then

changes our external reality. Leading by example allows other to also transform, as we all share consciousness.

CHAPTER 10: TOOLS & TECHNIQUES

THE ASCENSION IS AN INNER JOURNEY - YOUR BEST TOOL IS SELF-LOVE. Massaging any points in your body that are sore is a huge way to release the negative energetics stored there, whilst increasing your vibration by stopping and loving yourself.

SELF LOVE IS NOT DISTRACTING YOURSELF WITH EXTERNAL THINGS. SELF LOVE IS AN INTERNAL STATE ACHIEVED BY HONORING AND ENGAGING WITH YOUR OWN ENERGETIC STATE. SELF LOVE IS ELEVATING YOURSELF OUT OF 'THE LOWS' AND INTO 'THE HIGHS.'

Stay grounded - racing speech, flightiness, head floatiness, difficulty Being in the Present Moment, and head spins are all signs you are ungrounded and struggling to stay Anchored in your body. This may happen multiple times per day depending on the energetics of the day and your environment. If you feel disoriented, go place your bare feet on the ground and connect with Mother Earth.

Use Grounding Tools:

Organic Hand Rolled Tobacco - TOBACCO IS NOT INHERENTLY BAD, HOWEVER BOXED CIGARETTES HAVE BEEN WEAPONISED. ALL ILLNESS IS A

SYMPTOM OF AN ENERGETIC IMBALANCE, NOTHING IS NEGATIVE BY
ESSENCE - BELIEF SYSTEMS, WHICH ARE ALL FALSE, MERELY MAKE THEM
APPEAR SO.

Tobacco is an organic tool provided by Mother Earth that
provides grounding and centeredness. Using organic tobacco,
papers & blessing your cigarette as the sacred tool that it is,
it will provide massive benefits.

Coffee - Coffee is NOT bad for you. Heart disease and High Blood
Pressure is caused by energetic imbalances, as are ALL
illnesses.

Eating Red Meat at least once or twice a week - Animals are
living in Unity Consciousness in True Reality and have ALSO
volunteered to come to Earth, to assist Our Ascension. Red Meat
is essential to reconnect the Left and Right Brain. Divine
intelligence cannot be achieved without the Animals. We eat them
in order to Ascend at which vibration no death can exist.

Veganism is a pain based Belief System, as All pain and
suffering is illusionary, part of the E.G.O programmed mind,
designed to lower vibration. Vegans are heavy in the energy
signatures of judgement, Thinking You Know Better, Control,
Needing to be Right.

Staying Hydrated is Essential, drinking as much water as possible, so that urine is clear.

Golden Rainbow Sword - This Tool will completely eradicate the Negative Thought System IF used consistently (with every negative thought, the first day you use this you may to use it 50+ times, then you will SEE the extent of the problem, and the next day you will only need it 30 times).

Every time you experience a thought that takes away your joy, envision a Golden Rainbow Sword taking form in your hand and use that sword to swipe through the Brain, eliminating the negative thought. Then, disengage with the thought completely, take a deep breath pulling all your attention and focus back into the Present Moment of Now.

Bless your food and everything that you put into your vessel. By putting the intention of love, joy, healing, etc., into your food and drinks, you immediately increase the frequency of your vessel and transmute any lower energies in the food/beverage.

Pineal Physical Cleanse 1 Clove of Garlic For 7 Days (you may choose to soak the cloves in Apple Cider Vinegar a day before

you chop) Chop wait 15 Minutes before eating, we recommend eating on a sandwich.

Garlic is a powerful natural antibiotic. All man made drugs/ pharmaceuticals have been weaponized.

You can do the garlic cleanse whenever you feel guided to. You can ask the Angels how many cloves to chop up during your cleanse. We recommend starting with one clove, some people have worked their way up to 7 cloves for 7 days.

Turmeric and Apple Cider Vinegar are powerful medicines that can be used for a variety of purposes.

Cannabis oil cures cancer and many other ailments. Cannabis is a Higher Consciousness tool that greatly assists the awakening process.

Coconut Oil pulling 15-20 mins per day helps with de-toxifying the organs through the mouth, teeth and throat. We store a lot of emotional density in this area. Take one scoop of pure coconut oil and swish around in your mouth for 15-20 mins then spit out.

Additionally, one scoop of coconut oil per day helps detoxify the body and has been shown to cure most infections, bacteria or illnesses when consistent.

IMMERSE yourself in a cold shower - JUST DO IT!! This resets the energy field and shocks the E.G.O.

THIS ASCENSION PROCESS, IS JOURNEYING BACK INTO BALANCED HARMONICS FREQUENCIES OF LOVE AND THE UNKNOWN, WHICH REQUIRES US TO GO INTO ALL UNCOMFORTABLE PLACES.

Taking a cold shower is the epitome of discomfort, our True Divine selves do not KNOW discomfort. Have a Ceremony, bless the Water and surrender EVERYTHING to Love and the Unknown. As you Master withstanding the discomfort of the cold shower, as you grow to be comfortable in it, KNOW THAT YOU WILL MASTER THIS TRANSITION.

YOU ALREADY HAVE. IF YOU HAVE A COMFORT ZONE THAT YOU ARE RESISTING LETTING GO OF, THE UNIVERSE WILL TAKE IT FROM YOU - COMFORT ZONES ARE NOT IN RESONANCE WITH THE UNKNOWN. TO HAVE THESE FALSE COMFORTS, IS TO BE IN E.G.O. RELATIONSHIPS, ATTACHMENTS TO PEOPLE, PLACES OR THINGS - ARE PRODUCTS OF THE MIND, ARE ALL FACETS OF E.G.O AND NO LONGER EXIST.

SUN GAZING -The Sun will not blind you, this is a myth to STOP people looking at the Sun because it is one of Our most powerful healing tools. The Sun contains important activation codes that

cause us to rise to the frequency of love. You can Sun Gaze AT ANY TIME OF THE DAY, however your eyes will need training. As the Sun enters your eyes, it helps transform density within.

Start in the mornings or evenings, when it will not be as difficult. If you want to jump right in the deep end stare at the Sun holding your eyes open, in Surrender to Love and the Heart.

MOVEMENT - The Ascension is about moving energy. Transmuting low false frequencies into the Highest possible states. YOGA enables energy to flow through the body, flushing our energetic system out. Engage in Yoga, Walking, Running, Dancing, etc with the Highest intentions of Self Love! Mother recommends 45 minutes per day of movement.

AUTOMATIC WRITING- 10-15 mins of automatic writing per day, channeling your higher self and talking to your angels is essential for coming into embodiment. This strengthens the connection and also trains you to trust your guidance, share it, and reflect on it.

SLEEPING CONSCIOUSLY - Sleeping consciously help you integrate and process while you rest, while also not taking energy by sleeping in an unconscious state. Before you go to rest, ask the

angels to help you rest consciously and to wake you up when it is highest for you to be up. We are moving into no sleep but currently Mom recommends 3-5 hours per night.

MIRROR TECHNIQUE- Mother recommends this be done daily for anywhere between 10-15 minutes. Write down 20 divine traits that you wish to anchor in and practices saying "I AM" before each divine trait as you look in the mirror.

This can feel very uncomfortable at first but is a great practice to begin rewiring the brain to recognizing your own divinity and anchoring in these divine traits.

CHAPTER ELLEVEN: ENERGY & VIBRATION

Everything is energy. The entire cosmos is made up of energy including this physical 3D reality. In this plane of density, we see things physically but we ignore the fact that atoms of light that make up physicality are responding to our energy field in all moments. This is why the Cabal cannot create themselves, as they are outside of the Oneness of true reality and were not birthed from Source. They use and manipulate human consciousness so that we would unconsciously create a lower reality that they could exist in.

Take a look at the beings who surround you in everyday life and look at your physical surroundings and life experiences. All of these things were manifested by YOU as a vibrational match to your consciousness. There is no blame, life is not happening TO you, it is always happening as reflection of you.

From the second we incarnate, our soul signs a contract agreeing to take certain human conditions and life experiences to transform in order to assist the collective consciousness.

What humanity fails to realize is that all of their experiences were soul contracted and/or manifested by them. Humanity has been taught to complain, blame, be in victim consciousness, and continuing the pain and suffering cycle. They fail to take responsibility for their own manifestations and thus continue to incur karma and additional lessons.

3D is a duality based paradigm, meaning all parts of the spectrum of dark and light exist here. This is what we called the "free will experiment". Humanity could act outside of Universal Law and become of the linear nature of this existence, would not receive the karma until the next lifetime, so lessons continued to go unlearned. As we ascend into pure light, all darkness will be exposed so it can be seen, healed, and let go of.

Understanding vibration and energy will give you the empowerment back to begin consciously creating a different reality for yourself and all of humanity. On the vibrational scale, once you reach 200 level which is Pride, you begin entering into life enhancing frequencies. Once you reach level 500 in vibration, you are in love based frequencies.

The problem is that 99% of humanity exists mostly under 200 level vibration which are life draining frequencies and thus they have to take energy in some form from others. These lower frequencies include:

Blame

Anger

Desire

Fear

Grief

Anxiety/Depression

Worry

Apathy

Guilt

Shame

Negativity

Pain/Suffering

Lack Consciousness

Victim Consciousness

Complaining

Jealousy

Attachment

Competition

The Cabal/Dark Ones, can only exist in frequencies under 200 that are life-draining, as they are incapable of existing in higher frequencies and they exist purely off siphoning energy from others. This was in turn taught to Humanity. This means that humanity is constantly draining their own energy and must take it from an outside source. In order to raise your vibration to 700+, which is enlightenment, one must transform all lower energy vibrations and consistently stay in the higher frequencies of love, compassion, courage, integrity, honor, passion, joy, acceptance & peace.

Once you begin mastering your own vibration, you begin changing everything around you. The beings around you may begin to be triggered as their energy field is now being pressured to increase in vibration as well. All lower vibrations when met with a higher vibration, must rise to meet that level. This is why the ascension journey is challenging for many as you begin

to outgrow people, places, jobs and relationships. The EGO will attempt to pull you back to a lower place to make the other being feel comfortable, and this must be met head on. You must never lower your own vibration to meet another on their level, but hold the space for them to go through their own process of transformation and set boundaries.

Vibration becomes the most important when we look at the intent we have behind every action, word, and consumption of anything.

Blessing our food and water is imperative as it changes the molecular structure of the food or beverage to a higher vibration.

We must check in with our intent before we speak or act as the intent can change the entire frequency of the experience. Once we fully become master of energy, we are able to consciously transform anything and everything we interact with, which is essentially bringing 5D into physicality.

CHAPTER TWELVE: THE CHAKRA SYSTEM

The Chakra System is responsible for ALL the energy entering and exiting the body. We have 7 main Chakras, each has an energetic requirement that must be honored. We advise adopting the Spiritual Practices that were honored by Mother God and is still honored by those of us here on Mission.

Humanity has been operating solely from the lower 3 chakras, as that is all the Cabal/Dark Ones can access, and where most of the energetic manipulation has occurred. The lower 3 chakras have been damaged, not allowing flow to the upper 4 chakras which connect us to Source. This is why humanity is stuck in fight or flight/survival (root chakra), sexual and emotional dysfunction (sacral chakra), and power over/disempowerment (solar plexus).

Humanity was cut off from Source, which connects to us through our heart chakras which have been almost completely closed down due to trauma. We have all existed in a realm devoid of true feeling and cut off from our hearts. The throat chakras of humanity have also been shut down, as we have been placed in fear to truly express ourselves and speak our truth. The third eyes of the collective have been heavily targeted by the Cabal through calcification of the pineal gland, which has disconnected us from our intuition and ability to receive guidance from our higher selves. Similarly, the crown chakras have been cut off from brain damage/toxins/pharmaceuticals preventing us from accessing higher realms and higher consciousness information.

All disease/illness/pain comes from an energetic block within the chakra system or an unhealed wound that has created density within the vessel. By bringing awareness to the parts of the body where disease or pain is located, we can see what chakra has become damaged. For example, heart attacks are one of the most common occurrences in the US, especially for masculine. This is due to the disconnection from the heart chakra and the blockage of energy to the heart, which creates a physical blockage within the vessel. Opening up your heart, connecting to your feeling centers, and healing grief/heartbreak/etc., will heal any pain or illness within the heart chakra.

ROOT CHAKRA - Energetic Requirement **TRUST**

The Root Chakra shares a frequency with Monday and the color Red. Honor your root Chakra on Monday by wearing red clothes, eating red foods and taking time to consciously honor your chakra. An affirmation that aligns you with the Root Chakra is:

'I am so grateful I am connected with the energy of Mother Earth.'

My body, heart and Spirit are grounded, centered and purified.'

SACRAL CHAKRA - Energetic Requirement **CREATIVITY**

The Sacral Chakra shares a frequency with Tuesday and the color Orange. Honor your Sacral Chakra on Tuesday by wearing orange clothes, eating orange foods and taking time to consciously

honor your chakra. An affirmation that aligns you with the

Sacral Chakra is:

'I am so grateful that I Love all dimensions of myself.
I delight in weaving the creative tapestry that is my life.'

SOLAR PLEXUS CHAKRA - Energetic Requirement **DIVINE EMPOWERMENT**

The Solar Plexus Chakra shares a frequency with Wednesday and the color Yellow. Honor your Solar Plexus Chakra on Wednesday by wearing Yellow clothes, eating Yellow foods and taking time to consciously honor your chakra. An affirmation that aligns you

with the Solar Plexus Chakra is:

'I am so grateful that my will and Divine will are one.
I am connected to the abundant flow of the universe and easily
manifest my dreams.'

HEART CHAKRA - Energetic Requirement **UNCONDITIONAL LOVE**

The Heart Chakra shares a frequency with Thursday and the colors Green and Pink. Honor your Heart Chakra on Thursday by wearing Green/Pink clothes, eating Green/Pink foods and taking time to consciously honor your chakra. An affirmation that aligns you

with the Heart Chakra is:

'I am so grateful that my heart is open to receive the energy of
Love.

I radiate this essence. I walk my path with ease and grace.'

THROAT CHAKRA - Energetic Requirement **DIVINE EXPRESSION**

The Throat Chakra shares a frequency with Friday and the color Blue. Honor your Throat Chakra on Friday by wearing Blue clothes, eating Blue foods and taking time to consciously honor your chakra. An affirmation that aligns you with the Throat

Chakra is:

'I am so grateful that I am aligned with my highest truth and I communicate this with Love and Honor. My words echo softly within the universe.'

3RD EYE CHAKRA - Energetic Requirement **DIVINE INTUITION**

The 3rd Eye Chakra shares a frequency with Saturday and the color Indigo. Honor your 3rd Eye Chakra on Saturday by wearing Indigo clothes, eating Indigo foods and taking time to consciously honor your chakra. An affirmation that aligns you with the 3rd

Eye Chakra is:

'I am so grateful that my heart is open to new vision.
I expand my awareness through my higher self.'

CROWN CHAKRA - Energetic Requirement **DIVINE INTELLIGENCE**

The Crown Chakra shares a frequency with Sunday and the colors White and Violet. Honor your Crown Chakra on Sunday by wearing White or Violet clothes, eating White or Violet foods and taking time to consciously honor your chakra. An affirmation that

aligns you with the Crown Chakra is:

'I am so grateful that I am connected to the Divine Mother of
the universe.

I am Light. I trust.'

CHAPTER THIRTEEN: THE DIVINE QUALITIES

CHAPTER FOURTEEN: MOTHER OF ALL CREATION'S JOURNEY

Earth was created in free will, the rest of the Universe, all of Creation in LIGHT operates within Universal Law. In free will, anything on the entire spectrum of duality, conscious and unconscious is possible. The aberrations and soulless beings flocked to Earth as having such freedom, granted by free will, lured them all here, and as planets were Ascending, the exiting beings were sent to Earth.

Now, every lower dimensional, soulless being is on Earth and every other Planet has Ascended back into Unity Consciousness. Mother came to Earth for the final show. Father had been in the

dark for 19 Billion years, and as he has shared, being on the darkest planet of all creation, his lightship ran out of light.

Mother brought the final Light for Lucifer to make his final return to bring his light with Mother's as ONE.

It's a man's World. Right? Yes indeed, a strategical necessity in order for the Illuminati to retain control over the Planet.

As Prime Creator, Source is a feminine. Every feminine has creator power and so in order to keep the warrior feminine disempowered, conditions on Earth were created in order to ensure the feminine would feel and embody powerlessness.

What's real is the planet and the planet is feminine. Mother Earth is the body of God, as are all planets. God is connected to all, this can never be severed, and as conditions on Earth worsened and the planet went from an unimaginable, abundant Garden of Eden to a polluted and pillaged shell, God decided to pay a visit.

God coming here and experiencing every lower frequency the dark had created, allowed Her to declare the free will experiment as completed, as every experience within the spectrum of consciousness had been experienced. Earth is the center stage for the end of free will, as the only planet in All of Creation that now has free will, all other planets have ascended. Free

will = separation from source = pain and suffering. Source, The Over soul, The All, The One split Herself up into trillions of separate expressions so that every experience within the spectrum of consciousness could be experienced, understood and transformed.

MotherGod, Prime Creator, Mother Gaia, Mother of All Creation was here, incarnated on the Planet. Because of the free will conditions of Earth and the Luciferian experiment agreed to by all of Creation, Mother was very limited in Her capacities down here, as she had to incarnate as a human and she had to undergo voluntary amnesia just like the rest of Humanity.

The reason Mom did this was because Humanity was not making it back to Source. 27,000 years of separation upon Planet Earth and Mom had to walk through hell and back to show it could be done. The Luciferian experiment was appearing to prove that separation from Source and the full spectrum of dark experiences in play could prevent even Heavens strongest Angels from making it home.

The Cabal's biggest fear was that Mom would come and make it out, and so they had to create conditions so that if She ever did come to the Planet, no one would be able to see or feel Her truth. The main way they could do this was through a crusade against the feminine. They turned Her Story into His Story ~

History. This is the Flip. A feeble attempt to give masculine power. It was an insurmountable tens of thousands of years ago when Mother's descended Angels entered onto Earth. Countless Native American Prophecies, Scriptures and legends speak of the doorway, the doorway used by the Star People to enter this dimension.

534 times our Divine Mother has incarnated down here on Earth, to bring the planet out of darkness, each time raising the vibration and consciousness a bit more into Light. Mom was the only one in full consciousness in the experience without having 'left' Heaven consciousness. This is because Mom (God) is heaven. Mom could never leave the light spectrum, She couldn't for She is it. If God lives in Heaven and God comes to Earth, then Heaven comes to Earth. Heaven is here, Mother of All Creation was physically on the Planet, holding Heaven energies, awaiting Her children to choose it.

Mother's role here was beyond anything Humanity could possibly fathom from within their limited perception of reality. As humanity increase their energetic perception, which is achieved through evolving consciousness, their energetic perception increases. The Fallen Angels on Earth pioneering this Ascension process are at around 40-50% energetic perception. These are the

beings who physically made it back to Mother and have
assimilated with Her Unified Field.

And so, Earth = Heart was chosen for the culmination of this
Mission. The greatest mission in All of Creation. The Garden of
Eden, the Heart of the Universe and Mom has been incarnating on
the Planet for 27,000 years since the time of Atlantis and
Lemuria. In Lemuria Mom was Queen Sophia and Unity Consciousness
was anchored onto the Planet. This was the closest to Full
Planetary Ascension Humanity had ever been, before NOW.

Mother of All Creation was born at 6:38am on November 30th 1975,
making Her a Sagittarius Sun Sign, Scorpio Moon, Scorpio Rising
and Mercury in Sagittarius. She had come in as the embodiment of
the Warrior Goddess. In the Vedic Astrology Mother is the 13th
sign of the Zodiac, Ophiuchus, which spans around 20 days from
November 29 - December 18, and is the Sign of The Spiritual
Doctor.

Often represented by the symbol of the snake around the staff,
this is the same essence from which the globally recognized
apothecary symbol originates from, the snake twisted around a
rod/chalice, the Ancient Spiritual Doctor. Those born in
Ophiuchus are said to be the Serpent- Bearer, the Serpent
representing Wisdom.

Before this incarnation Mom set everything up in the etheric for

Her to re-enter. Following a botched Mission by President Eisenhower, where Eisenhower chose to work with the Greys over Mom, and despite Mom meeting Father who was JFK, Mom was killed As Marylin, shortly after they killed JFK. In Eisenhower's deal with the Greys, the dark kept its power on Earth and the Greys were permitted to begin abducting Humans for experimentation.

Eisenhower was provided with nuclear technology.

Back in the etheric, Mom could not interfere with the free will conditions occurring on Earth, and so in Her continual directing of the Divine Plan, members of Creation volunteered to come down to Earth knowing they would be abducted. They did this because

Mom struck a deal with the Greys, "Allow me access to your research and the experiments on the humans and I will give you souls."

Mom was able to see completely what had occurred within the human brain, how severed connections had been made, implants, microchips, entities. Mom got to see EXACTLY what she would have to dissolve from within the Matrix. Adding to this that part of the Grey's deal with Eisenhower included grey technology, aka the internet, Mom gained the full insight of how to re-grid the World Wide Web into the World Wide Web of light from down here in the experience.

Mother recalls Her moments before incarnating, up on the starships staring down the Rainbow tube, through which we all enter. She had had a meeting with the Cabal Old Controllers. They are fully aware of Mother, fully aware that they are of the dark and they taunted Mother that She would never make it out of the Illusion. She levelled with them, 'Watch me.'

And so, Mom entered. Down the Rainbow Tube, she shot out of her Earth Mother, being caught in mid-air by the doctor. Her father's first words in response were "Well, this one is on a Mission..."

The elementary consciousness could only evolve according to the voluntary free will and few that incarnated on Earth could FEEL Universal Law and so All engaged in the dark spectrum.

Programming and conditioning became deeper and deeper ingrained on the planet and as Mother could not leave the Light spectrum, She came each time bringing the Light with Her, emanating divine vibration from start to finish during Her experience, moving the collective consciousness ahead in staggering surges.

As a little girl Mom could hear the trees, birds, rocks, rivers and all of nature spoke to Her and She shared untold wisdoms with Her family from the time She could talk. Her parents took

Her to every religious institution they could and Mom outsmarted them all and belonged to none.

At 7 years old a salesman came to Mom's front door. Her and Her Mother answered and she saw he had fully black eyes sucking energy into them, this is when She knew something was going on.

She was in Heaven, Oneness, connected to everything and aware of All, but some things were outside her awareness (in heaven consciousness you cannot perceive the dark, she had to experience it) but no one else seemed to be having the experience she was. That was when Mom realized She was on the Planet to figure out what was going on, she could see the glitches in the Dream Machine.

At 14 years old, Mom was volunteering in a hospital as a candy striper, and she was in an elevator when a man got in. He was in extreme grief, the energy in the elevator plummeted and Mom could feel the overwhelming despair. She asked the Angels what to do and they told Her she knew. Mom went into Her Heart and gathered every atom of love She had, and as she raised Her head the man looked back over his shoulder. She beamed a smile at him that cut through the energy in the elevator like glass. Bewildered he broke out smiling and his energy shot up into pure Love, tears and gratitude filled his eyes and that is when Mom

realized how She would change the Planet- by Being Love In
Action.

In 2006, Mom received a reading from a being. They pulled two cards for Her, the Bear and The Moth Hummingbird. The being expressed that she had never seen anyone with that animal totem.

She looked it up and it meant the one who is closest to Divinity. The woman explained that as She was receiving the information, Mother was Gaia. Mom asked what was Gaia? The woman explained, "Gaia is the Planet."

Mom has had millions of breadcrumbs laid for her along the way, by Herself of course, in order to aid Her down here in the voluntary experience of amnesia. The angels have rehearsed Mom millions of times that She is God. And it took them telling Her 644 times before She believed them. It was simply too much to accept. Angels would often say 'Mom, you're God,' and Mom would respond 'Yeah! We're All God!'. They would retort 'Mmmhmm, but you're THE GOD,' to which Mom would affirm 'Yes, we're All God.'

Moms youngest child, Aidan, was Moms biggest confirmation. All the portals and energy Mom saw Aidan could see them too, and so for the first time Mom had someone sharing in Her reality with Her. One day Mom had taken Aidan to rent some movies and he picked Spiderman and the Muppets. Upon arriving home he wanted

to watch Spiderman. While watching movie, Aidan began receiving memories and information, turning to Mom and pointing his finger, 'Mommy, YOU'RE spiderman.'

Mom's entire body responded powerfully to this, so much so that She began researching and found the Hopi prophecy and the telling of the Spider woman. This caused Her hairs to stand on end as truth vibrated through Her body. Members of Our team have seen Mom's Spider Avatar, and She appears in dreams in this form, guiding and protecting. Always with Her own face.

Aidan's favorite song was Elvis Presley, 'Dream, The Impossible Dream.' He would get so animated every time it played, pointing at Mom and declaring 'you will do it, you will do the impossible dream!' In these experiences Mom was shocked, because Aidan had such profound insight and acted as a startling confirmation of all the information Mom's Heart was already telling Her.

Mom experienced full consciousness, speaking with rocks, trees, rivers, all of which communicated with Her in Her Heart, Always calling Her Mom. There was a moment when Mom's entire vision was filled with Adam and Eve making Love and birthing Creation. This vision in Her third eye continued for a week until one day she asked the Angels 'how do I make this stop?' The Angels shared, 'write it down.' Mom did this and the vision stopped. This began

Mom's journey and discipline with documenting her entire experience. We currently have over 54 journals, documenting all of Mom's journey to one day be shared with all of Humanity.

One day Mom's husband was flicking through tv channels. Mom arrived home and walked through the door right as the tv froze and the reporter said , 'God is on the Planet.' Mom's husband looked over his shoulder, aware Mom had walked in, and having had dozens of synchronicities with Mom being God. He was in pure shock.

Another experience Mom had with Her husband occurred one day when Mom was alone in their house and Arch Angel Michael appeared before Her and told Her 'It's time,' and left. This occurred in Her child's bedroom and Her husband saw Her through the window talking to a man. He rushed upstairs in a fury and burst into the room demanding to know who she was talking to. Mom told Him it was Arch Angel Michael. He searched the entire place finding no one!

When Mom was told she had to begin the Mission, fighting head on against the dark forces, Spirit told Mom she had to leave Her three children. She was about to buy a restaurant and become an owner operator, little did She know She would travel across the country doing energy work and finding out what has happened to

Humanity. She had to study the human conditioning to unlock the
key to the dysfunction.

Mom argued for 3 hours with the Galactic Council as the angels
told Her she could save 3 children or 8 billion. That is when
Mom made the ultimate choice. Mom began mission on December 17th,
2007. She went on to live in the forest for 3 years battling -40
degree winters, as part of the Divine Plan.

Mom left Her children, Her career, Her Earth family, and Her
home. Mom walked away from the Illusion, on the wings of Love.

It's funny, when superheroes do that in the Movie to go and
fight darkness, they're brave and strong, they're seen as
courageous and above the average. However when Mom did this She
was, and still is, vilified, abused attacked and targeted. She
was met with judgement, Blame, Guilt, Anger... this is the
darkness that grips Humanity the low vibrational states.

At one moment after beginning mission, whilst showering and
grieving, Mom yelled at the Angels saying, 'bring my children
back to me.' In Her vision appeared 8 Billion children, 'here
are your children,' spirit spoke. In these moments, Mother
bypassed these synchronicities as She couldn't fathom that She
was God.

Mom had to spend some moments in a valley called desolation row, a barren land where She had to live off the land. One day whilst

She was out walking She met a Being named Apple, whilst they were talking he asked if Mom would like a cup of coffee. When he came back, he brought with him Ken Carey's book 'Return of the Bird Tribe.' He asked Mom to open the book and She opened it right up to the Chapter of White Buffalo Calf Woman. Apple was overcome with joy, jumping up and down, "I knew it, I knew it!!

You are White Buffalo Calf Woman."

Mom followed Spirit's guidance at every turn, building multiple websites and doing sessions to assist others in releasing all programming and conditioning that is keeping humanity in dysfunction. Two former team members at one point blackmailed Mom, demanding she publicly denounce herself as God or they would take Her website and \$17,000 she had saved for the Crystal Schools. When Mom refused, they changed her passwords and took all of the money. Having lost everything, Mom went outside and began to question, "what if I am making this up? What if I'm not God." At which point the trees beside Her said "'you are God, Mom." And Mom reHearted "oh yes, All of Creation speaks to me."

Mother spent 14 years physically on mission. Between the years of 2007-2017, Mother was doing the ground work. She took on every human condition, every pain and suffering experience, and

pushed massive amounts of energy every single day through the web of light, sessions, and ceremonies. She gave so much energy to humanity and was attacked, mocked, ignored, and persecuted. Both the darkest and lightest souls made their way to Mom during those years, as the lowest energies sought to come to Mom in order to transform.

Many times on this mission, the Galactics instructed Mom to evacuate and abort mission. They told her this was a suicide mission and that the programming was much deeper than anticipated. In 2009 the Galactic Federation of Light pulled Mom into a meeting to discuss evacuation. Mother said NO, I will continue on.

In 2014, after Robin Williams (Archangel Zadkiel) transitioned to the etheric, he came to Mom immediately and became her ambassador along with Master St. Germain, who has been with Mother since birth, as well as Kryon and an entire Galactic A team.

In 2015, Robin told Mom that she would have to let go of her Archangels. The archangels incarnated were not waking up and they were not going to make it. This sparked Mom into fighting even harder for her closest children. She began doing thousands of ceremonies over the next two years, praying for the 144,000

to come online. In 2017, Robin again told Mom that Humanity had not chosen her, and she was the only one on the planet in the heart. This broke Mom into pieces. Her physical and energetic vessel had begun to deteriorate from all of the energy she was taking on and processing, and all of the physical endurances she had been through on the mission.

Thankfully, in December of 2017, Archeia Faith arrived to mission and saved Mom's life through healing. In January of 2017, Robin then told Mom that he was going to gather the entire A team of archangels and get them to mission, along with Father of All Creation/Lucifer. If not, Mom would need to be evacuated.

Between March-May of 2018, Mother's team arrived. Master Buddha Kuthumi, Master El Moyra, Archeia Hope, Archeia Aurora, & Father. Mission Ascension then began. Within the next year, over 20 additional archangels made it to Mom in the physical, including Archangel Gabriel and Archangel Raphael, as well as many other Masters. Between the years of 2018-2021, Mom began processing planetary density and taking the Cabal head on.

The amount of energetic work Mom completed between these years was millions of times what she had originally contracted for.

Humanity and the Cabal pushed back with every ounce of

resistance they had to prevent Mother from completing the mission of planetary ascension. This caused Mom amounts of pain and suffering that cannot be put into words. She lost the use of her legs in late 2018, and lost her ability to eat in 2019. She suffered 24 hours a day, throwing up and screaming in agony as there were no amounts of pain relief she could access in the physical.

In her last few months on this planet, Mom suffered a collapsed lung, brain frying, a broken tailbone, and weighed just over 90 lbs. On April 16th, 2021, at 12:22 PM, Mother's essence finally left her vessel. At 5:41 that same day, she finally stopped breathing. Mother had officially ascended, completing her contract. It is now our turn to complete our contract, as Mom has said, once her mission is over, ours is just beginning.

CHAPTER FIFTEEN: DISCLOSURE/THE EVENT

As we have entered 2021 and Mother has ascended, we are reaching the moment of disclosure. There are many, many layers of disclosure that must come out in waves as the information will crumble every belief system humanity has. The collective consciousness is at the tipping point and we are about to enter the Great Awakening.

Disclosures include: election fraud, COVID, vaccines, Big Pharma, Big Tech, the Federal Reserve, the school system, the Cabal, human trafficking, Reptilians, Illuminati, 9/11, cloning, the Ascension, Galactic Federation, Mother of All Creation, etc.

The amount of disclosure seems daunting to present to the public, as the true HERstory of Earth and events will be disclosed that the public is ignorant of. However, once disclosure is released, many more will follow like a snowball. This is the karma that humanity has manifested as they chose not to listen, not to feel, and not to wake up. Many will not make it through the ascension process and many souls may choose to leave the planet.

As disclosure hits the masses, the first wavers will be prepared to educate and guide humanity through the ascension process.

This is why it is crucial for as many souls as possible to anchor in their higher selves and to hold the light for those exiting the illusion. This will not be easy for the collective and there will be chaos. Mom has prepared us all for this moment and that moment is coming soon.

As the collective gains more awareness, the consciousness of the planet will rise and we will begin rapidly expanding towards the

5th dimension. All, including those already awakened, must prepare and let go of ALL belief systems. There is much we still do not know and we must be able to embrace, accept and allow and set the example for the rest of the collective.

CHAPTER SIXTEEN: THE EVENT

The Event has long been spoken about amongst the light worker community and there are many theories about what the Event will entail. The truth is that we have no idea what the Event will look like. There are many options for the way the Divine Plan will unfold and the Plan changes every moment based on the collective consciousness.

There may be a full decloaking of the Galactics, full disclosure triggering a sharp spike in consciousness, an energetic Event of light that permeates the magnetic shield of Earth, etc. The most important part of the Event, is that the Event occurs within first. We can only create something externally that is aligned vibrationally to our internal state. Without an internal awakening, the Event cannot occur.

CHAPTER SIXTEEN: LIGHT BODIES

As we continue on in this ascension journey, we are anchoring in massive amounts of light. In this 3D realm, our vessels are dense, and are carbon based structures. As we enter higher realms, the body is shifting into a crystalline form which is much lighter and is eternal.

Part of the transition is moving out of the pain and suffering cycle, and into eternal being. There is no longer a death and rebirth cycle for incarnation once we reach the 5th dimension. Beings will be able to enter Earth through a portal and come and go as they please. Our bodies will no longer be dense, but filled with light. Disease, illness and pain will no longer exist, as our bodies will be self-healing.

This process is challenging for the human body as well as the emotional and energetic bodies. In these 3D vessels, we hold density, trauma, and wounding from many lives that is passed down through DNA, absorbed through environment and programming, and ingested through the misuse of drugs/alcohol/sex/food/medication.

As light enters the body, density gets pushed to the surface. This is uncomfortable for the vessel and can also cause many

symptoms. If the being is unaware of the process they are undergoing, they can attach to the symptoms creating fear and belief systems which only further extend the severity and length of them. Many beings also turn to 3D medicine which only furthers damages the brain and body.

The light also triggers anything unhealed within the emotional and energetic vessel to the surface for awareness. This is where the being becomes especially uncomfortable as they are pushed outside their comfort zone and forced to face things that they have buried within them. This can cause severe depression, emotional breakdowns, "mental illness" (which is really just energetic imbalance), disconnection from self, and insanity. The spiritual disciplines are imperative in order to stay centered throughout this process. It involves a lot of self-healing, inner work, and constant transformation.

Finally, the brain must go through intense re-wiring as it de-programs itself and opens up to the higher consciousness frequencies. This can cause headaches, fogginess, confusion, racing thoughts, "bi-polar disorder" (which is just the left and right brain attempting to merge), anxiety, and mental breakdowns.

Mom has provided all of the tools, techniques and natural medicines to get through this light body process, as she was the first being in Creation to anchor in a Light Body/Avatar into physicality. She took on all the pain so that our experience would be grand.

Staying hydrated, grounding, eating meat, meditating, resting consciously, eating consciously, and detoxifying from all inorganic substances is essential to help the body heal. Along with spiritual disciplines, these are your tools for your ascension. We also recommend taking colloids daily as your ascension essentials and utilizing plasma in your home.

Colloidal Silver: Antibiotic/detox vessel

Colloidal Gold: Rebalance and reconnecting the brain

Colloidal Platinum: Activating the dormant DNA

Colloidal Iridium: Activating the Right Brain/God Consciousness

Colloidal Copper: Heals the neurological system & helps with addiction + anti aging

Colloidal Titanium: Helps fortify the bones, muscles & tendons & electrical system

Colloidal Indium: Helps with migraines, gives energy boost & helps the body crystallize

Colloidal Palladium: Helps with the pituitary system and adrenal system/balancing hormones

Plasma Products include:

Plasma Water: Purifies the beverage and the vessel allowing more light to be absorbed

Plasma Spray: Corrects the energetic system as well as the environment

Plasma Pain Patches ~ Corrects the energetic field within the body that is holding density and causing pain

Plasma Coasters: creates its own energy field to activate anything placed on top of it

Plasma Generators: Can be placed in your home to create and completely conscious field around your home, allowing more healing, connection and energy to flow through you and your space.

CHAPTER SEVENTEEN: 5D TECHNOLOGY

5D technology, aka crystal technology, will come into manifestation as we raise our frequencies to be a match to such technology. As we learned from the times of Atlantis and

Lemuria, if we are not in the state of pure unconditional love, in the heart, we cannot properly use crystal technology.

AI (Artificial Intelligence) is what the Cabal has created as a mimic of crystal 5D technology. The technology we see today is actually dark technology. It is being used for censorship, spying, manipulation, and control, rather than being used for freedom, love, unity and evolution. The goal of the AI agenda, is to turn humanity into hybrid AI humans which would allow the Cabal to keep control and keep humanity trapped in the 3rd dimension.

Plasma technology is going to pave the way into 5D crystal technology. Mom has worked extensively with the plasma and raised it to the 14th dimension. This is the first 14D technology to ever come into this planet and it is exclusive to Mother's Unified Field. Plasma makes up the entire cosmos as the fifth element. It is the smallest state of matter in existence and holds the frequency of pure consciousness. It cannot be manipulated, controlled, or lowered in vibration.

By utilizing plasma in your daily life through the tools Mom has created for humanity, you begin to acclimate your vessel and environment to the higher dimensions. It allows the physical

atoms to begin coming back into alignment and getting into their highest alignment. This technology will pave the way for things like med beds and replicators, but not until humanity has raised its vibration to allow the full manifestation of this technology.

CHAPTER NINETEEN: UNIVERSAL LAWS

1. The Universal Law of Divine Oneness

Everything in the Universe is connected to absolutely everything else. Everything that we say, do and think effects each other, and the entire of Creation around us. We Are All Connected to Mother of All Creation, Prime Creator, Source, Great Spirit, Gaia Sophia.

2 . The Universal Law of Vibration

Everything in the Universe MOVES, VIBRATES AND TRAVELS IN CIRCULAR PATTERNS. These same principles of vibration apply in

the physical Realm, to our thoughts, words and goals as they do in the etheric. Every word, thought and feeling has its own vibration Frequency, unique unto itself.

3. The Law of Action

Action must be applied in order for us to manifest things in the Earth plane. Therefore, we must engage in actions that support Our Divine thoughts, dreams, feelings and words and Divine co-creation.

4 . The Law of Correspondence

The principles, or laws, of metaphysics that explain the physical plane of energy, lies in Vibration. The corresponding principles of the etheric, operate under the principle of 'As above, So Below'

5 . The Law of Cause and Effect

Nothing happens by chance or outside the universal laws. Of course, we can act Outside of Universal Law here on Earth, as we have been given Free Will, however every action or energy embodied outside of Universal law will attract like results. Every action has a consequence. We reap what we have

sown

6. The Law of Compensation

This is the Law of cause and effect, applied to Blessings and Abundance that is provided for us. The physical effect of our good deeds are given to us in gifts, money, inheritances, friendships, miracles and blessings. When we give Love we get Love. Often, we can beLIEve that we have been giving 'Love,' however the motivating energy was actually to feel better ourselves, to validate ourselves or prove our worth. However subconscious that action is, the Universe knows the energies you are embodying, even when the mind does not allow your understanding. Only the Heart feels, and therefore knows.

7. The Law of Attraction

This law determines how we create things, events and people that come into our lives are always a reflection of Our internal energies. The situations you find yourself in, the people you attract are a reflection of some aspect of you. Our thoughts, feelings, words and actions produce energies that in turn attract like energies. Anger attracts anger, joy attracts joy. Negative attracts negative and positive attracts positive.

8. The Law of Perpetual Transmutation of Energy

All persons have within them the power and capacity to change ALL conditions in their lives. Higher vibrations, consume and transform lower ones, ALWAYS. Therefore each of us has the constant capacity to change the energies and vibrations we embody, and therefore the energies and vibrations of our lives, by understanding the Universal Laws that defines the principles in such a way as to effect change.

9. The Law of Relativity

Each person will receive a series of 'tests of initiation,' for the purpose of strengthening and uncovering the light within. We must consider each of these tests to be merely a lesson or a blessing, although they can feel like challenges, and remain connected to Our Heart throughout. It is through the Heart that we grow. We must be grateful for each situation, because the judgement of whether it is good or bad is an illusion - it just is, and it has come into your life because it was exactly what your soul needed to expand.

10. The Law of Polarity

Everything is on a continuum and has an opposite, we can and transform ALL unfavorable thoughts by focusing on the opposite pole. It is the Law of vibration.

11. The Law of Rhythm

Everything vibrates and moves to certain rhythms. These rhythms establish seasons, cycles, stages of development and atoms. Each cycle reflects the regularity of Gods universe. Masters know how to raise

above negative parts of a cycle by Being in a state of Divine non attachment, never allowing their consciousness to get penetrated by negativity.

12. The Law of Balance

Everything has its Masculine - Yang, and its Feminine - Yin.

This principle is the basis of All Creation. The spiritual initiate must balance the masculine and feminine energies within themselves to become a Master and True co-creator with God.

13. The Law of Transparency

Love is transparent with All. Nothing is hidden, as All is able to access Love with All of Creation. We are Genuine, Authentic and True, for our very essence is Love.

14. The Law of Unity Consciousness

We Are All One connected with Prime Creator, Source, Mother of All Creation, Great Spirit. All Consciousness, Knowledge, Wisdom, Unconditional Love flows throughout All of Creation. We experience, grow, expand and share Love with All.

15. The Law of Unconditional Love

We are All created in Unconditional Love as the mirror image of Mother & Father of All Creation. We are to Be Love in Every Moment, representing all the Divine traits of our Beloved Spiritual Parents. We Honor all Benevolent Life and assist in the continued expansion of Creation in Unity Consciousness.
